MAKING COMMITMENTS

WHAT WE NEED FROM PARIS A GLOBAL FRAMEWORK TO PROTECT THE VULNERABLE AND KEEP GLOBAL

WARMING BELOW 1.5°CELSIUS

VERSION 2.0 OCTOBER 2015

A global goal for Adaptation

A stand-alone loss and damage mechanism

Protection for forests and ecosystems

FOR THE VULNERABLE

2050 Targets to phase out fossil fuels and phase in 100% renewable energy

Clear short and mid-term targets underpin the long-term goals

A global carbon budget in line with the IPCC findings

and review periods for mitigation, adaptation, loss and damage and support

Regular, structured opportunities to ramp up efforts

A robust transparency framework to track progress and build trust, including for the forest and land-use sector

Coherent approach to equity and differentiation throughout the agreement

Strong and uniform international guidelines for future commitment setting

MECHANISMS TO SCALE UP **EFFORTS EQUITABLY AND** CONTINUOUSLY

Equitably scaled up pre-2020 mitigation and adaptation efforts as well as support

Roadmap and pledges to deliver USD100 billion per annum in climate finance by 2020

Moving from identification of mitigation opportunities to implementation particularly for RE&EE and activities in the land sector

Clear mandate for high-level engagments to launch new additional actions and support

Ratification of the Second Commitment Period of the Kyoto Protocol

THE AMBITION **CONCRETE STEPS EQUITABLY**

Clear planning for public and private climate finance in the midto long-term

Commitments to scaled up public finance in the post-2020 period in regular cycles

Affirmation to shift investments away from fossil fuels to sustainable low/zero carbon alternatives

A SOLID RESOURCING **FOUNDATION**

Why we are here

To stop the degradation of the planet's natural environment and to build a future in which humans live in harmony with nature.
