METHOD A - MEASURE FINGER WITH PAPER SIZER

- Carefully cut along the outline of the sizer. Make a small slit in the left end of the sizer.
- Wrap the sizer around the intended finger with the numbers facing out.
- Slide the pointed end of the sizer through the slit.
- Move the sizer to the largest part of the finger, this may be the knuckle.
- Pull tightly. The sizer must fit snugly to produce an accurate size.**
- The number that lines up at the slit represents the ring size for that finger.

NOTES FOR ACCURATE MEASURING

- Avoid measuring cold fingers as this is when fingers are at their smallest.
- Measure your finger when it is at its largest, at the end of the day.

METHOD B - MEASURE CURRENT RING

Measure a FLAT ring that fits you (or your intended recipient) Place your ring over the circle, making sure the inside of the ring lines up with the outside of the Black circle. You should not be able to see any blue on the inside of your ring and you should be able to see all of the black circle within your ring. If you are between sizes, order the larger ring size

**Where possible, it is preferable that you make an appointment with Elverd Designs, to have your sizing done in person. This will guarantee that the ring sizing is exactly what you require. For those that are unable to visit with Natalie, please read the instructions very carefully, and if in doubt opt for the larger size. Elverd Designs takes no responsibility for human error in reading the above chart. **
