Learn the Card with MODERN Mahjong.com

Thank you to Barney for the great idea!

During our Modern Mahjong Zoom Card Review and our Panel on Advanced Strategy, Barney shared that in addition to making all variations of hands with actual tiles, he writes each hand down on graph paper. Barney uses a pen with four color inks (three for the suits and black for the Flowers and Winds.)

If this is a helpful way for you to learn, we invite you to print several pages of these sheets to review all the different combinations of hands on the new 2023 Card.
