Exploring the Applications of Psychology

Programme Code: PSYC9021

Application Code: 1750-2466NW

2975 5865

emma.ng@hkuspace.hku.hk

Psychology is the study of human's behaviour, performance, and mental operations. It also refers to the application of the knowledge, which can be used to understand social phenomenon, treat mental health problems, and improve education, employment, and relationships, etc. The subject lies at the intersection of applied, educational, and theoretical science.

The objectives of this short course are (1) to introduce participants to the field of psychology; (2) to describe how various psychological approaches contribute to our understanding of everyday life settings; and (3) to apply the knowledge from these studies to our own personal and professional lives.
