ACCESSING ARCHIVED DATA

This document provides guidance for accessing reports of previous year's data from the "**Archives**" area in the KReady system. Follow these steps to access the reports. Note that **only data that was downloaded during the previous assessment window is available to be downloaded from the data archive.** Download access to requested data may take longer depending upon the size of the organization/district data requested.

1. Select "Archive" from the dashboard or left-hand navigation

2. Select the desired assessment period/data collection to access the reports.

3. Select the desired download by clicking the "**Download**" button.
