Welcome to this edition of our exclusive FSW Weekly.

New site and a fresh new way of presenting you with the week's latest new items to arrive in stock and re-stocks too. We hope that you not only like the presentation but find it a useful tool to help you in choosing and ordering what you need for your collection.

There's plenty of variety in terms of subject matter in the latest edition of FSW Weekly and from a fair number of suppliers too. Most prevalent are Spark,. With a huge selection of single-seater and sports racing cars representing marques such as Porsche (no surprise there!), Lotus, Lola, Ligier, Red Bull, Cadillac and many more. Looksmart also have a new resincast with a 2018 race winning Ferrari F1 and we see more resincast releases by Autocult. This week's diecasts are mostly rally related with Dakar machines from WSI Collectibles, a support van from Ixo and an interesting collection of 1970s and 80s machines from Trofeu. For plastic kit builders there are new decal sets from Tabu Design and Studio 27, offering liveries and carbon details for F1, Daytona and motorcycle subjects and for 1:43 kit builders there's a striking new LSR subject by Dwindle, also available hand built. There are books too and some restocks of handy detailing parts and a few older kits. Scroll on down now...
