WELCOME

Welcome to UKTV Live – a chance to gather our friends and partners to share with you all the exciting plans we have for the year ahead. Our plan to grow UKTV is working – we are home to the two largest non-PSB channels and have seen real successes on our channels for young and ABC1 audiences. Also, amazingly in 2016, we increased our average monthly reach by 600,000 viewers, growing to 41 million people – something we are very proud of.

Helping to drive this growth is our firm focus on UKTV Originals. Our investment into new content across the network has led to a 40 % increase in entertainment commissions, successful launches, award-winning returning series and around 50 shows currently in production.

As a network we are committed to supporting our platform partners through our commercial, creative and marketing teams. We believe the record levels of content investment, along with a progressive on demand service, will continue to place UKTV at the centre of any pay TV offering for years to come.

We know our audiences want the freedom to watch our channels whenever they choose and by making more of our own shows, we can continue to grow our TV

on demand service, UKTV Play. UKTV Play is now available on 13 platforms and devices, with over 10,000 hours of great television available. Views to the service have grown by 68 % this year alone.

We will never forget that talent is what drives our business and I'm especially grateful to the incredible producers, talent, studios and suppliers that have trusted us with their fantastic ideas and shows, and allow UKTV to nurture these programmes and bring them to audiences. And of course, I also want to thank the media for their ongoing support for our strategy. Thank you to our platform partners Sky, Virgin Media, BT, TalkTalk, YouView, Freeview, Freesat, Eir, Vodafone, TV Player and Amazon; our advertising sales partners Channel 4 Sales and Sky Media Ireland, and our network of co-production, distribution and other funding partners. As ever, my greatest thanks go to all my colleagues and their relentless pursuit to entertain the nation.
