

7 Tips for Converting a Kid's Painting to Doormat...

1. Normal paper is fine.
2. Painting is better than textas or pencil drawings for clarity and boldness
3. Thick paint, not transparent or translucent - so not too much water when painting
4. You don't need to paint all the background. You can select a background colour and we can add your painting over the top
5. Either write your own text or we can print the message on there for you
6. You don't even have to wait for the paint to dry...just take a photo of the painting from directly over the top from above.
7. Upload the photo when you are at the Product page.

This is a painting I dug out of my cupboards. Jaden is now 15years old and this was from Preschool.

You can see I've moved and enlarged his name, added the 'home' and filled the background
