

## 2017 Free Seed Program

### UNH Extension Service Master Gardeners

**UNH Extension Master Gardeners are excited to announce and launch a new Free Seed Program for school and youth gardens across the state.**

#### **Program Information:**

Seeds have been donated by seed companies and local seed sellers. The initial offering contains 2015 and 2016 seeds. We believe the germination rate for these will be acceptable. For this year at least we are required to limit orders to 15 seed packets per organization.

Through Master gardener efforts we expect to have a much greater volume of packets to distribute in the future.

#### **Seeds and Substitutions:**

Seeds come from many suppliers and some, not all, are organic. There is a check box on the order form for organic growers. Less than 25% of our seeds are organic. Orders that have to be organic may not be completely filled due to availability.

Let us know also if substitutions are acceptable. Since we have limited supply this year we may need to substitute.

#### **Order Information:**

Orders should be sent to:

UNH Extension Service  
Attn. Free Seed Program  
329 Mast Rd, Suite 115  
Goffstown, NH 03445
