Read what a parent has to say about Books and Brains!

I wish I had known about Beverly a lot earlier. We only had two months left in Hong Kong when I asked her to work with my eldest who had just completed Year Two. Bev really took the time to hear me out about what his concerns were and did an assessment to pinpoint specific areas he needed help with. Matthew was not blending, spelling or reading fluently. He was in one of the lowest reading levels in his class. I asked Beverly if she could teach him intensively three times a week for 8 weeks. At the end of the 8 weeks, Matthew was on the right reading level for the end of Year 2, when initially he was at Reception level! Matthew is now feeling a lot more confident in his reading and spelling skills and is now reading a lot more books independently. The two months he spent with Beverly have set him up for a smooth school life here in the US! I will always be so grateful to her and her passion for what she does.
