How to print the flashcards

Each card is designed as A5 in size. They can be professionally printed or printed on standard office printers. They have been designed to fit two to an A4 page and to be printed double-sided and then cut out, with the main area on the front of the card and additional images and text for prompts on the back.

- Set the document to print in colour or black and white, double-sided, long-edge binding.
- If your printer allows you to print to the edge of a page, scale at 100%. If it does not, you can print the document at "scale to print" and trim off the white borders
- A professional-print pdf with full 3mm bleeds is available should you wish to get the cards professionally printed onto cardstock.
