JOSHUA SCOTT

SOLUTIONS FOCUSED
TECHNOLOGY LEADER

Loveland, Colorado • (970) 818 - 6800 • hello@joshuascott.us • linkedin.com/in/joshuaacersscott/

PROFILE

Innovative technology leader with over two decades at the forefront of software development, I excel in building modern applications that leverage modern cloud platforms, driving digital transformation and growth. Recognized for rapidly assimilating emerging technologies with a builder's mindset, I specialize in crafting and scaling solutions that drive business value. With strategic vision for the ever-evolving business landscape, I lead initiatives that streamline operations and create significant value. Guided by agility and steadfast execution, I prioritize human-centric solutions, essential for navigating today's dynamic technological era and ensuring our enterprise thrives through impactful breakthroughs.

EXPERIENCE

VP, DESIGN + SOLUTIONS ARCHITECTURE
Gorilla Logic // Broomfield, Colorado // 2016 - 2024

In my role leading Solutions Architecture at Gorilla Logic, I've been central to the architecture and development of transformative software applications, which form the backbone of our clients' enterprise offerings. My focus has been on creating adaptable and scalable solutions that meet immediate client requirements while enabling future innovation. I nurtured a strong partnership with both the Sales and Delivery organizations through both pre-sales technical and advisory activities, which has expanded our client portfolio and cemented strong partnerships. Above all, I take pride in having assembled and mentored a team whose talent and skill exceed my own, which stands as my most notable achievement.

ACHIEVEMENTS + HIGHLIGHTS

- Enhanced advisory services by adopting a comprehensive multi-disciplinary approach, leading to a 20% attach rate for advisory and discovery services on new deals, $165M in pull-through revenue, and a client deal closure rate of 40-60%.

- Key contributor to transformative service solutions in Legacy Modernization, Cloud Migration, DevOps, QA, and Digital Product Design, pivotal to our core offerings and client achievements.

- Delivered expert consulting and tailored technological solutions across 25+ sectors including Fintech, AI/ML, Healthcare, Entertainment, Hospitality, Green Tech, Education, and Property Management.

- Formulated and executed a competency framework for Solutions Architects and Strategic Designers, harmonizing skills with performance metrics and compensation across a globally distributed team.

- Worked with SMEs to develop a scalable maturity assessment model covering key domains such as DevOps, Cloud, Technology, Architecture, QA, Agile, and Design, streamlining clients' product strategy and development.

- Oversaw ISO 27001 compliance audit, upholding the highest data security standards and reinforcing our governance framework.

EXPERIENCE

OWNER

Idea Collaborative // Loveland, Colorado // 1999 - Present

I formed the company as a forward-thinking software development consultancy, I excel in steering technology leadership, creating application architectures, and cultivating human-centric user experiences. I have delivered full-stack web solutions and smart device application development, underscored by strategic foresight and process innovation, propelling clients to the forefront of their industries.

ACHIEVEMENTS + HIGHLIGHTS

- Developed and implemented application architectures that have been integral to advancing clients' market positions.
- Fostered a culture of strategic foresight and process innovation, ensuring that client offerings remain at the forefront of technological advancements.

SENIOR WEB APPLICATION DEVELOPER

CF Webtools // Omaha, Nebraska // 2015 – 2016

I was recognized for crafting sophisticated solutions to complex problems. My contributions as an integral part of a top-tier development team resulted in the delivery of rapid, impactful projects that substantially increased value for a wide array of clients.

ACHIEVEMENTS + HIGHLIGHTS

- Played a key role in a specialized "fire fighter" development team, focusing on the delivery of swift and significant project results.
- Enhanced client value through innovative, high-impact solutions that met and exceeded project goals and expectations.

DIRECTOR OF INNOVATION & INTERNET TECHNOLOGY

Camino Global // Dallas, Texas // 2005 – 2015

As the strategic orchestrator for a respected international non-profit, I leveraged my project management and architectural expertise to ensure seamless web system functionality and drive forward-focused organizational growth.

ACHIEVEMENTS + HIGHLIGHTS

- Led the strategic planning and direction for web system development at a prominent non-profit organization.
- Drove the organization's growth with a focus on forward-thinking strategies and sustainable development.

TECHNICAL LEAD

NetAccountability // Dallas, Texas // 2001 – 2004

As the Technical Lead and Co-Founder of NetAccountability, I played a crucial role in the foundational design and operational processes, culminating in a comprehensive project that required over 3,360 man-hours and significantly improved system architecture and project success, leading to the company's acquisition by Bsafe Online and then McAfee.
