

License Agreement - Audio

Please read the following terms & conditions of this license agreement carefully.

Using any Wavepusher digital product files means acceptance of all the terms contained in this license agreement. Any unlawful use will be pursued to the fullest extent of international law.

Wavepusher audio samples are licensed, not sold to you, for use in music productions only.

Wavepusher reserves any other rights not explicitly granted to you. Unlawful copying, duplicating, selling, lending, renting, hiring, broadcasting, uploading or downloading to any database, news groups, servers, computers, file sharing services or other illicit distribution of our files is strictly forbidden. Each purchase comes with a single user license, which is non-transferable.

All sound files are provided “royalty free”, meaning any music you create using Wavepusher samples is yours to monetize... but: Wavepusher holds the actual copyright to each isolated sound.

You may use, edit and manipulate Wavepusher sound files within your compositions for both commercial and non-commercial use. Use of our sound files in isolation such as, but not limited to; video game sound tracks, UI fx, gaming machines, and mobile phone applications is not permitted.

Wavepusher sound files may **not** be used individually or in combination with other sound files to produce derivative/transformational single samples or sample libraries released by either competing companies or by an individual.

Please preview demo files and demo tracks before purchase.

All sales are final, the digital product cannot be refunded, this due to the intangible nature of digital files in general. The licensor (Wavepusher) will not be held responsible if the sound files do not fit the particular purpose of the licensee (you).

Any demonstration tracks are not licensed to you, and they may not be re-created in their current state.

Wavepusher sound files are licensed to a single user. Keep your receipt as proof of purchase. Your purchase is both non-refundable and non-transferable under the terms of this license agreement. You cannot sell any sound files second hand, and by the same logic, you cannot purchase any Wavepusher audio files second hand and use them in your music compositions or productions.
