If you decided to log into your game, you will now notice two new options via the options panel, while you are in the game. You can now easily access your Game Wall & Simport.

The Game Wall can be easily explained as an in game "social network". You will be able to access your Sims 3 Profile and also communicate and share in game activity with friends. It basically gives you the option of using the sims 3 website, in game.

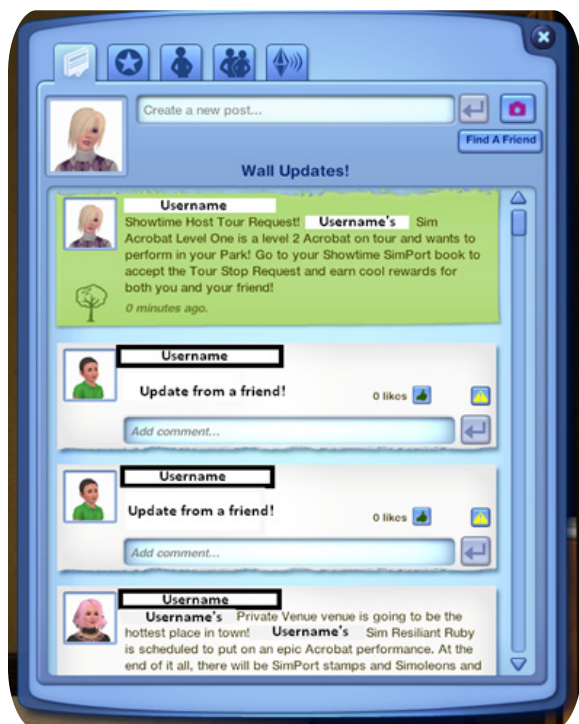

While you are in the game, you will notice a new notification box that will remain in place at all times. You can minimize it, so it doesn't interfere with your screen. This is basically a shortcut for you to post a status update onto your profile.

Any friend requests, simport requests and other social activity will pop up in this box. You can disable these notifications by visiting the game options via the game menu.

You can double click your avatar on the above photo and it will take you directly to your news feed and player wall. Once there, you will be greeted with 5 new game tabs...

### News Feed/Wall Updates (Tab #1)

Your news feed will consist of status updates, photos, Simport requests, memories and completed achievements. This is where all the action happens. You can like, comment and post status updates on your game wall. During the time your game wall is open, the game will auto-pause.

### Achievements (Tab #2)

Your achievements page will show you the latest completed achievements from your game, as well as list all the achievements the game has to offer. You can filter the achievements by type, or scroll through them using the golden area at the top.

### Profile/Player Page (Tab #3)

This tab will allow you to change and interact with your profile, just as you can on the Sims 3 website. From here you can post a new status update, like and comment on your updates, register a game, and share memories from your scrapbook.

## New Creature – The Genie

There are a total of four ways for you to bring the powers of the Genie into your household. Genie’s can be both male or female, and they carry the same type of powers. Genie’s can grant your Sims a number of different wishes, but your Sims only get 3 wishes per Lamp. The Genie Lamp is indestructible.

## Fun Facts

- Genie’s Levitate instead of running, and are much faster than normal Sims.

- Genie’s are immune to fire, so neither them, or their lamp can perish in a fire.

- Genie’s can become ghosts, and they retain all their abilities after their passing.

- Genie’s and Sims can woohoo and try for babies. When trying for a baby with a Genie, there is a 50% chance of Genie, or Sim.

- Genie’s have longer lifespan’s than Sims.

## Genie Lamp via Lifetime Happiness Rewards

The easiest way to get the Genie Lamp, is to save on 30,000 Lifetime Happiness Points and purchase it directly through the LHR panel. Once you have purchased it, it will be placed into your Sim’s inventory.

During the time your Sim is inside the Dimensional Gate, a number of pop ups will appear allowing you to choose your Sim's Adventures. Sims will return with many different items from these adventures, but there is only a rare chance in finding and bringing back the Genie Lamp.

### Genie Lamp via Exploring Catacombs

Head on over to the cemetery in your town after midnight, and Explore the Catacombs! The chances of coming back with the Genie Lamp are extremely rare, but it is possible if your Sim is lucky! The Cemetery in Starlight Shores offers a better than rare chance of giving your Sim the Genie Lamp.

### Genie Lamp via The Electro Dance Sphere

When your Sim reaches level 10 of the Handiness skill, they can upgrade the Electro Dance Sphere, to add the "Dimensional Gate". The Dimensional Gate is exactly the same as "exploring the catacombs" in the cemetery.

### Genie Lamp via a Legendary Performance

As your Sim's progress in any of the new performance careers, the more likely they are to perform a "Legendary Performance" while on stage. There are a number of admirers that will attend your Concerts, but one of those admirers will offer your Sim a unique gift, which can be retrieved through your home mailbox.

### Summon The Genie

Whichever way you have chosen to get your very own Genie Lamp, you are now able to Summon the Genie from it's lamp. Genie's offer a variety of wishes for you to choose from, but you only get 3 wishes, so choose wisely.

Once a Genie Lamp is present in a household, it can be used by any member of the home. Genie Lamps are not owner specific, but if you worked hard to get it, make sure no one else uses your wishes!

Genies need to rest after every wish, so you are only allowed one wish every 12 hours. There are a total of 11 wishes for you to choose from, with the 11th wish available to Sims with the Evil Trait.

Sims can interact with Genie's in the same manner they can other Sims. You can take your Genie out for night in town, be romantic with them, or make them your best friend.

### **Genie Wishes**

-Beauty – This wish increases a Sim's chance of flirting, being kissed, loved etc. This wish beautifies your Sim permanently, giving them a better chance to execute Romantic Interactions successfully. (Cannot be wished for twice)

-Fortune – Need some extra cash? This wish adds a whopping 100,000 Simoleons to your household fund.

-Free The Genie – In order to complete this wish, you must have a very high relationship with the Genie. Freeing the Genie from it's lamp will make it a member of the household. You will need to complete a number of steps to successfully free the Genie. (Explained Below)

-Happiness – The Happiness wish gives a Sim the Eternal Joy moodlet (+25) permanently. (Cannot be wished for twice)

-Large Family – The Large Family wish, gives a Sim the Feeling Fertile moodlet. This moodlet will last until the Sim Tries for a baby. The

attempt for baby will result in triplets every time.

-Long Life – This wish extends your Sim's lifespan by 30 days, serving as a "Young Again" potion, or Ambrosia type wish. (Cannot be wished for twice)

-Love – This wish will allow you to choose any Sim in your relationship panel, and make them fall in love with you instantly! Sims will also be given the Enchanted Love moodlet (+10) for 24 hours.

-More Wishes – Your Sims can try wishing for extra wishes, but there is only a very rare chance the Genie will grant you two extra's!

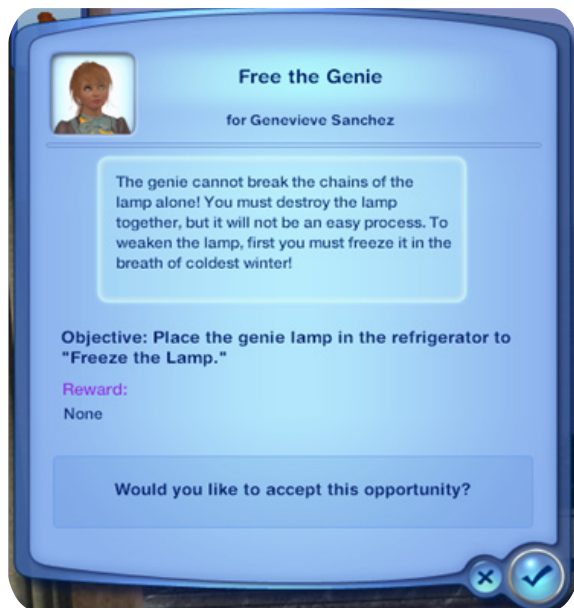

-Resurrect Sim – If you have any Sim remains on your lot, you will be able to wish that the Genie bring them back to life, resulting in a Resurrected Sim added to the household.

-World Misery (Evil Trait Required) – Finally, the world is as miserable as you are! Your Sim will receive the Miserable (+25) moodlet for two whole days. (Cannot be wished for twice)

-World Peace – The birds are chirping, the sun is shining, and the world feels just a peaceful as you! Your Sim will receive the Peaceful (+25) moodlet for two whole days. (Cannot be wished for twice)

### **Freeing The Genie**

When choosing your wishes, one of the wishes is to Free The Genie from it's lamp. If complete the following steps, you will be able to free the Genie and make it a controllable member of your household. Once you select this wish, you will be greeted with an opportunity to complete.

Once you have accepted this opportunity, you will need to complete a series of steps to completely free the Genie.

**Step One** – Freeze The Lamp – Click the refrigerator in your home and select “Freeze The Lamp”.

**Step Two** – Heat The Lamp – Click the oven in your home and select “Heat Lamp”.

**Step Three** – Explore Catacombs w/Lamp – Go to your local cemetery, click the Mausoleum and select “Take the Lamp Underground”

**Step Four** – Free the Genie – Summon the Genie from it's lamp in your inventory, and watch it set free from the chains!

Once a Genie is set free, they can no longer grant wishes.

The Genie is now a member of your household, and has the same needs as all other Sims. Along with the new found freedom, your Genie can now Enspell Non household member Sims, Banish Sims, Magically Clean Sims/Home, & Summon Food of any type in perfect quality.

Genie's can Enspell Sims that are not part of your household. Enspelling a Sim adds them to your Household for four hours, and removes all autonomy from the Sim. Do as you please with this Sim, but after four hours, he/she will return back to his normal life.

A genie can release a Sim from Enspellment at any time.

## Genie Offspring

Once your Genie is freed from the lamp, your Sims can now “Try for baby” with a Genie. There is a 50/50 chance of your Babies being born with Powers. The powers a born genie will have are the same as their parent. They will not be able to grant wishes, but they do have the full powers of any freed from the lamp Genie.

Genie offspring also carry on their genes, and have the opportunity to pass on their powers to their children later in life.

Genie Offspring can begin using their powers as a Child.

### Death by Magic

Magicians who use the Box of Danger to perform tricks, also run a chance of being buried alive...literally! When using the "Buried Alive" or "Watery Grave" interactions, there is a chance the magician will fail terribly at these tricks, resulting in death. Ghosts will appear invisible, with a grey-ish tone.

If you want to protect your Sim, you should save your game, or carry a Death Flower with you, prior to performing in the Box of Danger. Death by Magic, can strike at any time!

Showtime comes with a whole bunch of new fan favorites! From the Mechanical Bull to the PhotoBooth, there are so many new toys for your Sims! This section explains these new objects and even has a few screens for you to see!

### Gigs and Performances

As your Sims' expertise level increases, the more gigs and performances they will perform. When any Showtime Sim begins their career, they will naturally have to perform enough gigs to increase their talent. Reviews and talent play a big role in a Sims career. The better your Sim gets, the more shows they will put on. If they are good enough, they will get a steady gig, with even more income!

### Gigs

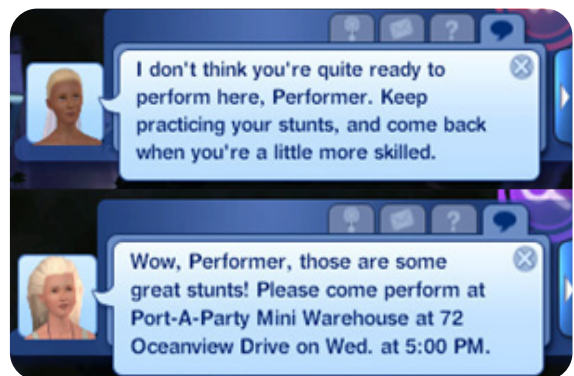

Soon as a Sim joins any of the new careers, they can begin auditioning for gigs at local venue's, Bistro's, Coffeehouses and Parks, to gain experience. The more expertise they have the better chances of landing more gigs! Prepare your Sim to impress the proprietors, by practicing the interactions available to them.

Once your Sim is comfortable performing, head into map mode to look for proprietors to audition for. Some proprietors are only available certain times, however you can visit the location and "summon the proprietor".

Proprietors will be marked with an Orange Icon in Map Mode

Once your Sim auditions for a proprietor, they will be informed on whether or not they have a chance to perform the gig. Your Sim is more likely to land small time gigs immediately, but some proprietors will think your Sim does not have what it takes for their location. A little more practice will help make every audition successful!

As your Sim progresses in their career and start to get noticed, they may even receive a proposed gig or a Steady Gig! Steady Gigs will allow your Sim to perform at a specific venue on a steady basis. Proposed Gigs are offered to Sims who have been noticed, and those can turn into steady gigs as well. Proposed Gigs are normally offered to level 4 career and higher.

If your Sim manages to set up steady gigs, you can keep track of those, and any upcoming (non steady) gigs, via your Gig Schedule. The gig schedule is located in the "Career" tab, and steady gigs will be checked off.

Gig Schedule				
Location	Day	Start	End	Steady
Verde Park	Sunday	4:00 PM	7:00 PM	<input checked="" type="checkbox"/>
Rodeo-Go-Go	Monday	6:00 PM	9:00 PM	<input type="checkbox"/>
Flying V's Coffeehouse	Tuesday	8:30 PM	11:30 PM	<input type="checkbox"/>
Port-A-Party Mini Warehouse	Wednesday	4:00 PM	7:00 PM	<input type="checkbox"/>
Mick's Master Karaoke	Saturday	5:00 PM	8:00 PM	<input type="checkbox"/>

Sims can have many gigs (steady or not), as long as they do not interfere with any already accepted gigs. Gigs can be canceled at any time, so just click the location of any gig to cancel it.

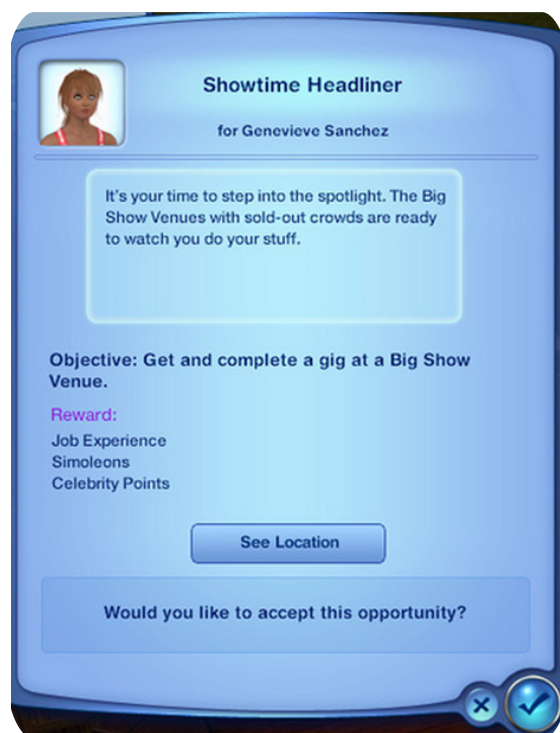

## Big Show Performances

Once your Sim has done gig after gig after gig, they can start performing big time! Tired of the same ol street and hangout? How about some Big Show Venues! When your Sim has gained enough experience and stage time, they can begin auditioning for Big Shows. If your Sim has made a good name for them-

selves, they will even be invited to perform a Big Show!

Sims may receive direct notifications from proprietors, or an opportunity within the game will arise.

No need to worry if you do not get an invite, with the proper skills and expertise, your Sim can visit Live & Big Venues to audition for a Big Show Performance. Proprietors may or may not accept your audition, but either way, you will be one step closer to the big stage.

When you arrive at the big show, you will be given an option to customize your stage, or use the venue's stage. Unlike regular local gigs, big show performances come complete with a one of a kind stage, and a huge crowd to cheer you on! Make sure your Sim knows what he/she is doing, or else you may just bomb the show!

## Before, During & After Performances

There is so much that goes into a performance, that preparing for it can make any Sim nervous! There are so many interactions and features to experience as a performer, or as a guest at a show. This section will give you some of the basic info you need to nail the performance!

Note that the following options are available during your solo game play, as well as Simport.

### Before Performances

Approximately two hours before any Sim is due on stage, you can head on over to the location of your gig/performance and set up the stage. If by chance you don't arrive early, don't worry, you will automatically have the option to set up your stage right before the show begins.

Once you arrive at the location, you can click on the stage and choose to use the Venue's Setup, your own custom setup, or a previously saved setup.

Note that when/if you save a custom stage setup, you are only allowed one save. If you save a 2nd setup, your original will be replaced.

Whichever selection you make will automatically take you into buy mode > Stage Props. From there, you can choose from many different props, lights, backdrops, FX Pods...etc!

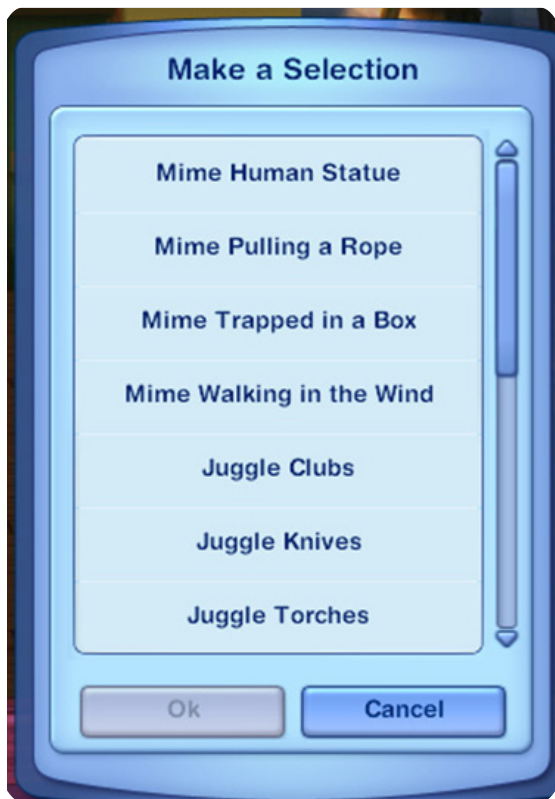

### During Performances

Whether you're the performer themselves, or just a member of the audience, there are always fun things to do! Audience members can interact with performers, and the performer can interact with the audience!

To start off, members of the audience can request interactions from a performer. When you visit a venue to see a performance, simply click the Sim on stage and choose from a pop up menu of options. Depending on the expertise level of the Sim, depends on what interactions you can request.

If you were visiting the performance of an Acrobat, you would have the following options to choose from when clicking the performer (and more depending on their Career Level)...

Another really fun part of being in the audience, is that you can Heckle and Throw stuff at the performer! From “booing” to throwing Cow Plants, the options are endless!

Anything you throw at a performer will land in their Sim inventory, and they can take it home with them. Check out the variety of items for you to throw at performers, and what can be thrown at you!

## On Stage With Magicians

While your Magician is performing on stage, they have an additional option to use the audience to boost their performance! When your Sims have the "Box of Mystery" or the ability to "Levitate Self/Sim", they can use the extra interactions on stage.

These extra stage interactions are only available to Magicians.

## After Performances

After your Sim has completed their stage performance, it is time to find out how they did! If your performance was a success, you may even land a steady gig and some great reviews!

If your Sim did a superb job on stage, they will be given a great review, some more stage time and a moodlet to go with it! On the other hand, Sims who bombed their performance will receive bad reviews and moodlets along with them!

Sims who's performances are "Legendary", may even receive the Genie Lamp!

## SimFest

Simfest is a free weekly talent show right in your town! Sims can gather and watch the town's best (and worst!) performers on stage, and if your Sim is a performer, they can ask the proprietor to join Simfest too! Performers will also gain experience in their career when performing at SimFest.

At the end of the show, a winner is announced, and if your Sim is better than the rest, you will receive a Simfest "Winner's Trophy", as well as a "SimFest Winner!" moodlet. Interactions and options at Simfest, are the same as any other performance.

Simfest is a random talent show, and once the game generates a day and time, you will be alerted via a notification and a map view mark.

## Magic Doves Backdrop

This decorative backdrop is a bestseller with bird hunters and skeetshooters, but was designed with the traditional magician in mind. Doves represent love, but also drama, whether they're appearing out of magic hats and sleeves, or flying in extreme slow motion in bad action movies.

Environment: 2

## Magic Trunk Prop

# Simport & Rewards

Simport is the Sims 3 Showtime's exclusive social feature. Simport allows you to send your Sims on tour to another player's game, and allows you to host another player's Sim. Simporting between games will boost your Sim's career, unlock exclusive sets with props and outfits, and add Simoleons and Lifetime Happiness Points to your household. The Simport feature only works if both the sender and receiver have Showtime installed.

Simport allows you to send up to four Sims in your household, but only allows you to host one Sim at a time. The Sims that you send and receive, must meet the criteria and experience required for the specific tour stop. If your Sim is a level 10 in Acrobatics for example, they will not be able to perform a tour stop which requires a Level 7 Acrobat, even though their level of expertise is above the requirement. Each Sim must fit the criteria for any specific tour stop.

Accepting and sending Simport requests can be done within your Simport Book, as well as your in game Player Wall. You have the option to send out Simport requests to anyone on your Sims3.com friend list specifically, or you can post a general request which can be accepted by any member on your friends list.

## Important

-Before sending and receiving Simport requests, it is highly recommended to save your game. In the event of any lost Sims, crashing, or other unfortunate issues while Simporting, at least you will have the latest save of your

game.

-Third Party Custom Content & Sims 3 Store Content will not transfer with Sims. If a friend sends you a Sim with any content you do not have in your own game, the Simport process will automatically replace them with default items in your game.

-When Sending and Receiving Simport Requests, you do not have any control over the touring Sim. When you send your Sim into someone else's game, you will not see your Sim, but you will receive notifications of what is happening if you are online at the time. Simport is not a form of multiplayer gameplay.

-Simport requests are only valid for one (1) day. If the request has not been fulfilled within a 24 hour period, you will have to resend the request. If you do not attend a Simport performance, you will not receive any tour stamps or rewards.

-It is required that you have a minimum of two Sims in a household in order to Simport.

## Sending a Simport Request (Career Stops)

There are two ways to send your Sims on tour. One way is to accept Simport Requests from friends who want to host a Sim, and the other is to send a Sim of your choice, while select-

ing when and where to perform. You can only accept Simport requests from friends if you qualify for the tour.

Now that you have chosen a qualified Sim from your household, you are ready to choose your Venue and Career type. You can choose from 5 Venues and 3 Careers.

To begin Sending Sims on tour, open your Simport Book and select "Send a Sim". You will then be guided through steps to help you choose a Sim to send, a Venue Location, Career Type and a friend to host your Sim.

Depending on what career Sims you have available in your household, will depend on which career stamps are unlocked for use. If you have any career Sim in your household, all venue stamps will be unlocked, however not all career stamps may be unlocked.

For example, if you have only a Singer in your household, the Acrobat & Magician Stamps will be locked until you have a qualified Sim. Another example of locked stamps is when a Sim in your household does not qualify for certain tours.

**Locked Stamp** — **Unlocked Stamp**

You are now ready to select a friend(s) to host your Sim! You can choose one friend in particular, or you can choose to send out a mass Simport request. Sending a mass Simport request will allow everyone on your friends list, a chance to accept. Only one friend will be able to accept, complete and be rewarded per request.

**Pick a friend, any friend!**

Your Sim will be held in the “Pending Simport Tour” box until someone accepts your Sim into their game. Once someone accepts the request to host your Sim, your Sim will become uncontrollable and leave in a Limo. Once your Sim performs for your friend, you better hope they make it to the show!

**If your Sim completes the tour, but your friends never made it to the venue to watch, you will not be rewarded with a Simport Stamp or extra Simoleons/Lifetime Points.**

If your friend successfully attends your Sim's show while on tour, you and your friend will be rewarded with a Simport Stamp.

This completes your Simport Send Request, and your Sim will now return home. If you're lucky, you may even come back with some awesome inventory goodies that were thrown at you during the concert! You will however, receive Simoleons and Lifetime Happiness Points for your time.

### Hosting a Sim (Venue Stops)

There are two ways to Host a Sim. One way is to accept Simport Host Requests from friends who want to send a Sim on tour, and the other is to host a Sim of your choice, while selecting when and where a Sim will perform.

To begin Hosting Sims on tour, open your Simport Book and select “Host a Sim”. You will then be guided through steps to help you choose a friend who's Sim you want to host, a Venue Location and a Career Type.

When hosting Sims, you do not need to worry about any career type stamps being locked. Those will remain open during a Host, but

only a friend who's Sim fits the criteria will be allowed to accept the Simport request.

To begin hosting a Sim, select the Venue & Career type!

Once you have decided on a “who” and “where”, you can select either a specific Sim to host, or send out a Mass Simport Hosting request to your friends list. Sending a mass Simport request will allow everyone on your friends list, a chance to accept. Only one friend will be able to accept, complete and be rewarded per request.

Once a friend accepts the invitation to send their Sim to your game, you will be greeted with a notification, letting you know who has accepted. You will then be allowed to confirm your decision on completing the hosting request.

Once you have accepted the request, your friend's Sim will be on their way to your town! You will be notified of their arrival, so make sure you attend! If you do not attend the Sim's performance, you and your friend will miss out on the rewards!

On the day your friend's Sim is scheduled to arrive, you will be able to check the Map View of your town for details on their show. The venue at which they will perform, will display a red marker.

About 15 minutes before the show, your game will ask you to choose the Venue Set up. You can choose to create a custom stage with Buy Mode Props, or you can use the Venue's default layout.

Once you have decided on props, you can now sit back and watch the show! During the performance you can even toss some items at the Sim, which will land in their inventory and go back home with them. Once the show ends, the Sim will return to their home, and your Sim may even receive an awesome moodlet!

Unlocked rewards will automatically be added to your game.

## Simport Rewards

During the time you spend sending and receiving Sims between games, you and others will be rewarded by completing the stamp sets in your Simport Book.

There are a total of 9 Simport Exclusive Sets. To unlock all sets, you will need to collect 45 Career Stamps & 45 Venue Stamps. Once you have complete all 90 Stamps, you will be rewarded with the 9th and final "Steampunk" themed set. (Pictured Above)
