HOW TO SORT SAFELIST EMAILS IN GMAIL

From your Inbox, open the email from the Safelist you want to filter.

- 1. Click the drop down menu "More".
- 2. Click the option "Filter messages like these".

Any new mail for the Safelist you created the filter for, will now appear in the left pane in it's own folder.

So if you need credits for say "List Bonus", you click on "ListBonus" and it will display all the messages from that site only.

Now you can click for credits and once finished, you can delete any that you don't need.
