

MEL BOTERI

SPRING/SUMMER 2013

SPRING 2013 INSPIRATION

As I set out to create our Spring 2013 collection, I was immediately drawn to elements found in our natural environment. Aside from the amazing pops of color, what I found to be really intriguing was the unique design behind each new piece, - the black and white stripes on a Zebra, the varying shapes and hues of a Dahlia's petals, and the random scattering of light in a deep turquoise sky - and how each gives these objects of nature their own unique fingerprint.

My goal is to therefore offer you the same here. Through the use of the finest European components in a unique combination of finishes, textures and colors, our handbag and jewelry pieces have been designed to evoke a sense of exclusivity and individuality. Hand-made with artisanal craftsmanship, we give you designs with the same level of distinction that inspired their creation.

xxMel
