# Line 5 Oil Pipelines: The State of Michigan's Duty

## Line 5 in the Straits:

- \* Rests on **state-owned bottomlands**
- \* Required legislative authorization (Act 10)
- \* 1953 easement is held in **public trust** for the benefit of Michigan's current & future generations

Actual Line 5 Construction

# Michigan's Public Trust Responsibility

## Public Trust means:

- \* State's **perpetual duty**
- \* Ongoing determination Line 5's continued operation will **not substantially harm or impair**
- \* Public trust protection of resources and uses:
  - \* navigation, fishing, commerce, hunting, drinking water, recreation, etc

-- R 322.1001; R 322.1006(d)

# Public Trust Precedent in Great Lakes

Illinois Central Railroad Co. v. Illinois - 1892

Oil & Water Don't Mix Campaign

# Public Trust Incorporated in Enbridge's 1953 Easement

The state's easement with Enbridge says:

- \* "Grantee...at all times shall exercise the due care of a **reasonably prudent person** for the safety and welfare of all persons and of all public and private property..."

- Enbridge easement pgs. 3-4

# Urgency for State to Act Now to Protect the Public Trust

# Urgency for State to Act Now to Protect the Public Trust

# Great Lakes Submerged Lands Act & the Public Trust

## About the GLSLA:

- \* Legislature incorporated state's **public trust** responsibilities into the **GLSLA** in 1955.
- \* Executive branch issued rules under GLSLA to dictate details of a **public trust determination**.
- \* Judicial branch reaffirms its role as the **third trustee** of the public trust. (Obrecht v. National Gypsum, 1960)

# Great Lakes Submerged Lands Act & the Public Trust

- \* Rules under GLSLA: “A **determination** by the department that the private or public use of such lands and waters **will neither substantially affect** the public use thereof **nor impair** the public trust or interest of the state.”  
(R 322.1006(d))

# Procedure for Public Trust Review: GLSLA

- \* Attorney General Frank Kelly's Opinion #5214 - Existing deed owners subject to GLSLA permitting.

# Procedure for Public Trust Review: GLSLA

- \* Enbridge and state recognize GLSLA as guiding statute as it applies to maintenance activities under the easement.

Enbridge Installs New Anchors – 8/22/2014

# Protections included in GLSLA

- \* **Open public process** with full disclosure with **notice** to impacted local units of government and riparian owners.
- \* Allows **participation by the tribes** to protect their public use rights.

# Protections included in GLSLA

- \* Opportunity to explore the cost and feasibility of a full **range of alternatives**, including decommissioning, re-routing, secondary containment, replacement etc.
- \* **Burden of proof** on Enbridge to demonstrate they are protecting public trust uses.
- \* **Duly recorded findings** necessary (*Obrecht v. National Gypsum Co., 1960*)

# Task Force Proceeding

- \* Applaud the administration for the work of the Task Force for bringing attention to the pipeline and the potential risk to the Great Lakes.
- \* Has served an important fact-finding function.
- \* However, we don't think it has the legal authority to make a final public trust determination the Enbridge's Line 5 will neither substantially harm nor impair the public waters and uses of the Straits.

# Our Recommendations to the Task Force

1. Enbridge be required to file a proceeding under GLSLA to show:
  - That its pipelines will neither substantially affect the public use nor impair the state's public trust interests and that they are taking all reasonable steps to protect public uses.
2. That the review should be ongoing and formally reviewed under the GLSLA on a time table determined by the state.

# Thank you
