

Your Guide to Natural Deodorant

PIT PERFECTION STARTS HERE

NATURAL DEO 101

New to Natural Deo?

We know that making the switch to natural deodorant can be daunting, but don't sweat it!

This guide has everything you need to know to make a smooth transition to our Deodorant.

In this quick guide, you'll learn:

1

HOW MUCH TO APPLY

Spoiler alert: Less is more.

2

WHEN TO APPLY

Smooth, effective application is even easier than you think.

3

WHAT TO EXPECT

A short adjustment phase is totally normal (and healthy!).

1. APPLY LESS

You only need a pea-sized amount per armpit to stay fresh all day. *Seriously.*

Natural deodorant works best in small amounts. When you **apply just a pea-sized amount** in each armpit, it melts in smoothly, covers more evenly, and keeps you feeling fresher, longer.

Bonus? Your jar will last way longer (win-win).

APPLICATION TIP:

Use a tad less than you think you need each day until you find your sweet spot.

If you apply too much, you could experience:

Buildup
on skin

Residue on
clothing

Less odor
protection

Skin
irritation

2. APPLY WHEN WET

No need to dry off! Damp skin helps your deo glide smoothly and prevents residue.

You'll get your best application when your natural deodorant cream has an opportunity to **really sink into your skin**, giving you a smooth application and preventing powdery residue.

Trust us, your skin (and shirt) will thank you.

APPLICATION TIP:

Apply right out of the shower or spritz a bit of water on your skin before applying.

When you apply to damp skin, you'll enjoy:

Smooth
Application

Better
Performance

No Powdery
Residue

3. DON'T GIVE UP!

The “detox” phase is real. Your body may just need time to adjust to our formula.

While our Natural Deodorant works wonders for most, a few may experience less-than-perfect odor protection at first.

The good news? If you stick with it through the “detox” period, your body will adjust—and you’ll be rewarded with **pit-perfect performance**.

HOW TO DETOX (AND STILL SMELL GOOD):

Apply to
clean skin

Reapply as
needed

Drink lots
of water

Embrace
the sweat!

Note: If you experience a rash at any time, please discontinue use. This is most likely an allergy or sensitivity to an essential oil, not detox.

Meet the Starter Kit

Little Seed Farm's **Natural Deodorant Starter Kit** comes with everything you need for a smooth and successful transition.

DEODORANT CREAM

- 1 Stay smelling fresh all day long, naturally with our bestselling 24-hour formula!

SILICONE SLEEVE
