

Workshop May 14th Hotel Birger Jarl Stockholm Navigating Sustainable Procurement: How to accelerate your program

Welcome to a workshop featuring
Cesare Guarini, Head of Procurement
Strategy Initiatives and Sustainability at
Clariant, enabled by EcoVadis.
Monday May 14th 14:00-17:00

We will enable you to learn from all in the room, share common
challenges, discuss ways forward and how to continue to build
and grow sustainable procurement.

Welcome!

Workshop outline

Navigating Sustainable Procurement: How to accelerate your program

Lessons learned: How do you incorporate sustainability into sourcing and procurement practices?

Clariant is a global corporation operating 156 companies in 53 countries with more than 17 000 employees. For the past five years, Clariant has been developing its risk and sustainability strategies, practices and processes. Listen to a brief run through of their journey and take the opportunity to benchmark your sustainability maturity, challenges and opportunities. Here you will discuss the strategic importance and ways to incorporate sustainability from a procurement and business development view. Discuss:

- What is the strategic role of procurement in company-wide sustainability development?
- What are your challenges including sustainability in your procurement practices?
- To what extent is your code of conduct or idea of code of conduct an active part of your sourcing processes?

Cesare Guarini, Head of Procurement Strategy Initiatives and Sustainability at Clariant

CLARIANT

Topics we will go through include

- What are the risk management reasons, and how will these support corporate risk management?
- What is driving sustainable procurement efforts ? Internal, external pressures?
- Sustainable procurement strategy and What are common goals, objectives and targets?
- Why sustainable procurement should not be siloed and how to increase internal engagement
- Integration into procurement process?
- KPIs and reporting?
- What do you perceive being the biggest risks in your supply chain?
- What are the biggest challenges evaluating risks in your supply chain?
- What are you doing today and planning to do about evaluating risks in your supply chain?
- How are you managing your supply chain CSR risks?
- How do you engage your supply chain to drive improvements on sustainability issues?

...Throughout the workshop findings will be shared and discussed - the idea being for you joining to learn from as many as possible.
