

COVER STYL'
SMART INTERIOR DESIGN

1 THE STORY BEHIND COVER STYL'

Create, renovate or transform your walls and furniture with Cover Styl'.

Thanks to our thermoformable architectural vinyl, you can cover a number of surfaces like wood, aluminium and PVC.

Hotel bedrooms, kitchen, lounges... With our covering solutions you can do any chosen renovation in every room of your establishment or shop.

With over 650 different adhesive covering references, our solutions come in various styles for interiors that match your taste.

2012

Since its birth, Cover-X had the purpose to become a high-end renovation solution. Two years after, we had the great responsibility to help one of the greatest hotel chain to upgrade their room : Marriott (La Défense, Paris). From this day, everyone at Cover-X is certain that the Solar Screen family knew, film is the greatest answer to the sceptics. And it was just a beginning.

2015

Because it was not only an answer to the renovation but a help to give more strength to the interior design, the name **Cover Styl'** was born.

In order to develop the brand and to increase our propre expertise, we've created our first training center, in Paris. With help of the marketing, we've launched our first Binder. Counting all our references, it became a must have to imagine a new interior design.

From there, we've worked on many construction

sites all around Europe: Club Med (Portugal), British Airways (United-Kingdom),...

2018 has been a turning point in the Cover Styl' history : the training academy was launched in Luxembourg. Supported by the arrival of Andrea Cedrati, our installation expert.

All that was needed was the referral to a large hotel group to make this year a chain of succession.

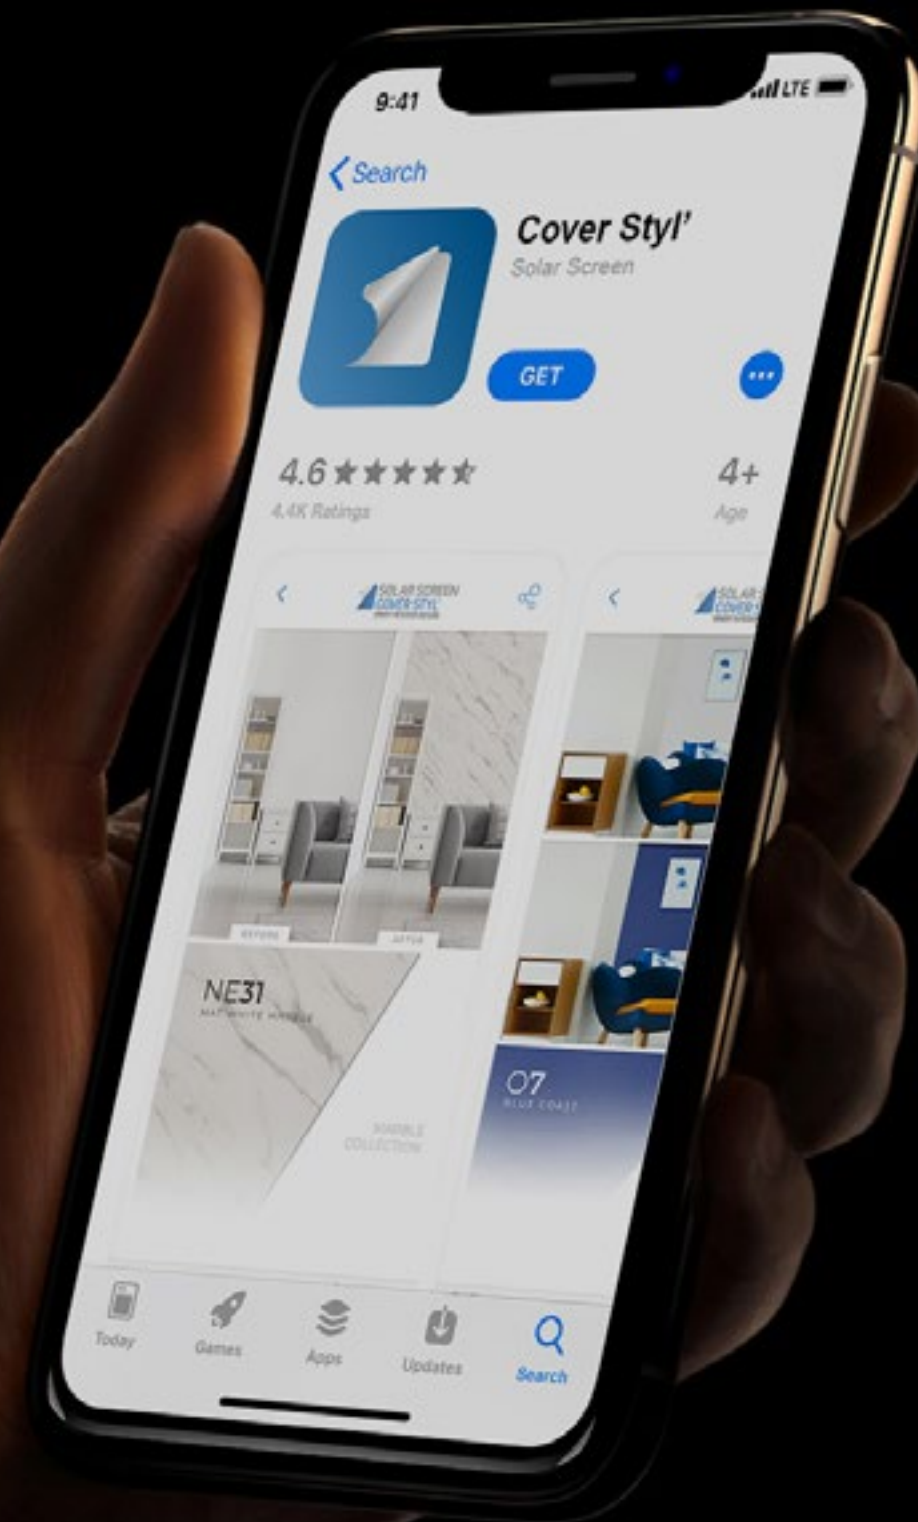

Spoiler alert : Cover Styl' signed with Accor in 2019

2020

2020 marks the completion of one of our greatest achievements : the birth of a research & development service. Along with a Colorado Océ from Canon, the service is now able to create in house the swatches, minimizing waiting times for any marketing order.

It marks also the launch of our augmented reality application, created for every one who wants to not only imagine every doors or walls covered with our films. Without any doubt, we've started the new decade like it should be.

A large, vertical, grayscale marbled background on the left side of the page, featuring swirling, organic patterns in shades of gray and white. The marbling is dense and textured, resembling natural stone or watercolor washes.

2 A SOURCE OF INSPIRATION

The only thing limiting your renovations? **Your imagination.**

Indeed, Cover Styl's solutions are customisable and adaptable to your wishes and those of your customers.

Hotel, store chains, companies... Many high-profile establishments have already made the leap thanks to the extremely wide choice of styles we propose. The ideal partner for all your renovations. Cover Styl' supports you in your projects.

Over 650 different references spread over several sumptuous ranges. Renovate your establishment with ease and with style thanks to our decorative adhesive films system.

Because every interior ought to be unique, we propose a wide range of styles that will adapt to your atmosphere.

IN THE MOOD FOR WOOD

Inspired by a number of timber species, our Wood range reveals the charm of your rooms, giving them a natural touch. Are you dreaming of an interior with a “Swiss chalet” or Canadian-style look? An oak, beech, teak look....Placed in strategic places, such as a table or a wardrobe door, you would only need the smell of the woods and birdsong to transport you to the middle of the forest.

Inspiration drawn from Nature

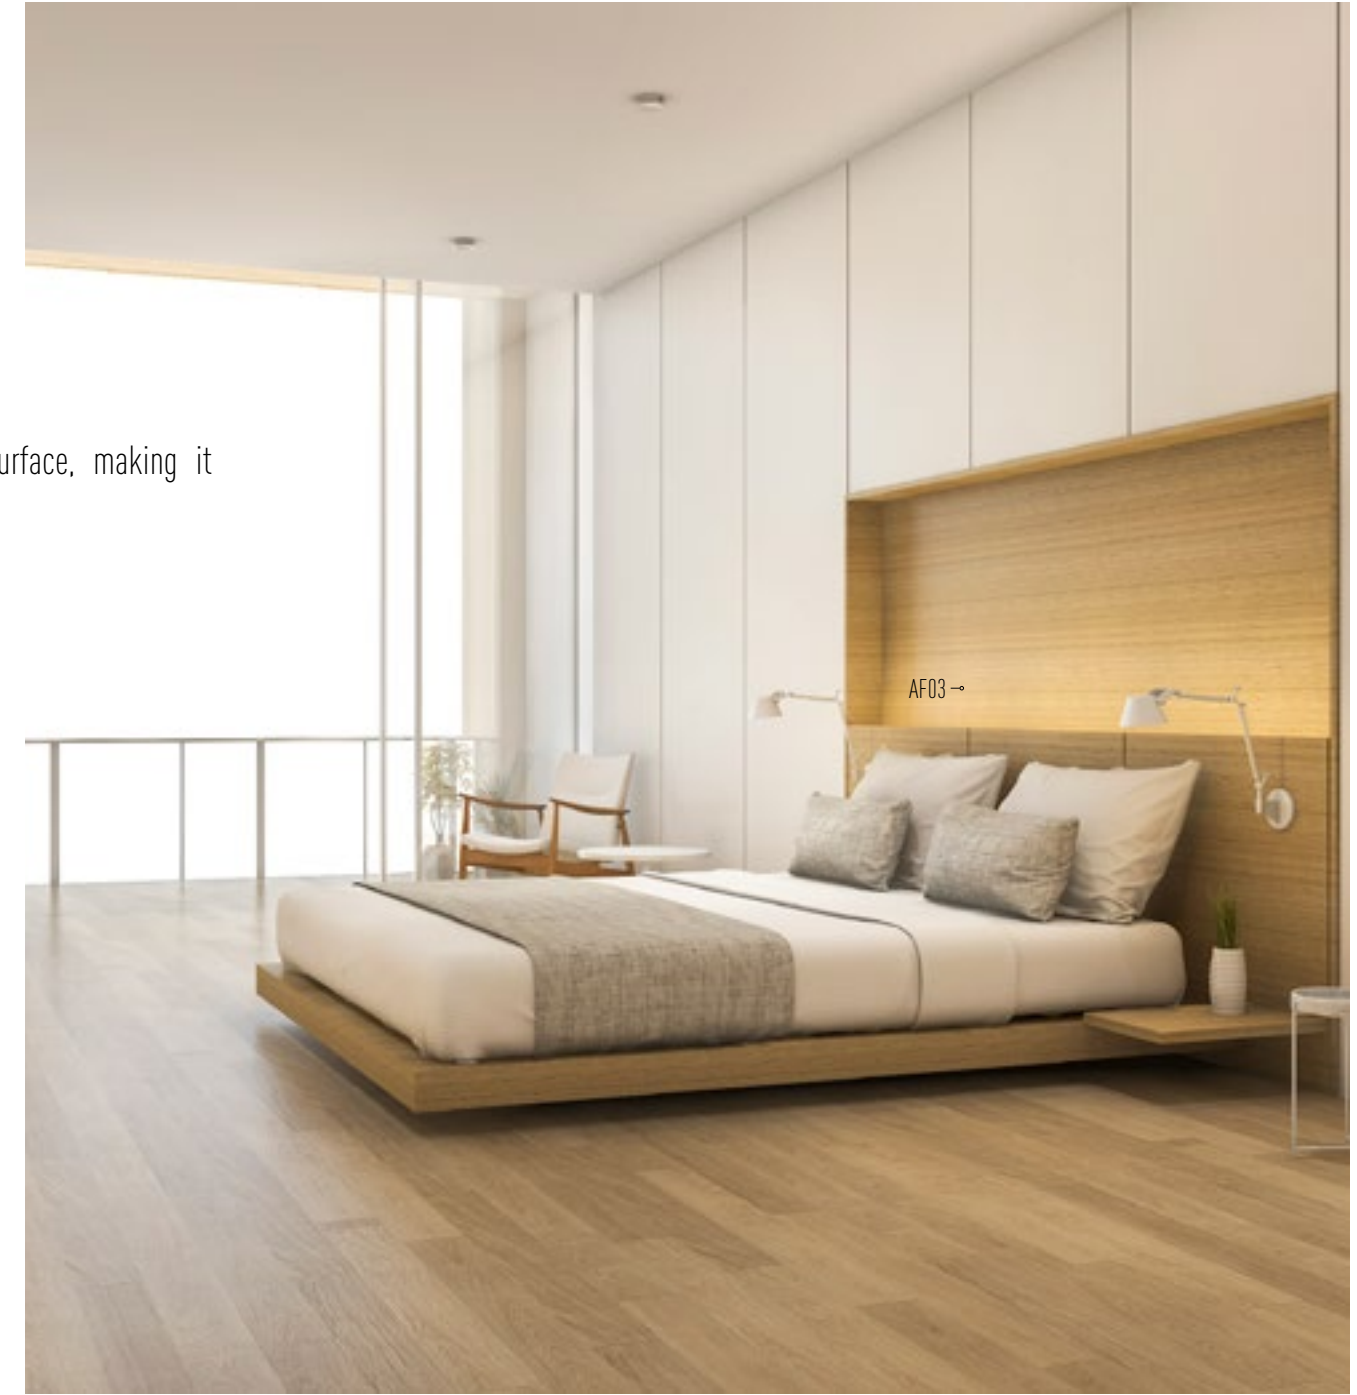

Our Wood range is your ideal asset if you want to display a warm interior decoration.
Its nobility and authenticity add a real touch of elegance to your interior decoration.

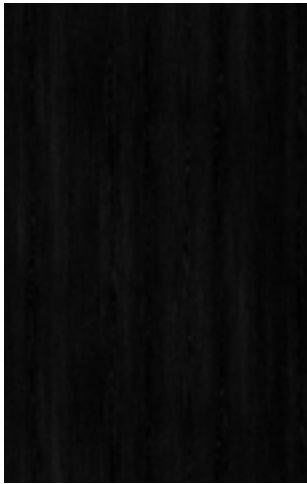

Wood combines wonderfully with any other surface, making it possible to use with all styles.

SOFT AS LEATHER

The sophistication and richness of leather in all its forms. With the Leather range, your décor creates a charming “animal” effect which causes a sensation without harming any animals. Different textures allow you to create a very specific mood in all the areas you want to tackle in your renovation projects. Are you looking to add a touch of class to your establishment? Then put these voluptuous, sensation-creating colours in your lounges or on furniture such as chair backrests or cabinet doors.

Leather gives your interior the impression of breathing. It has this characteristic of being unique and therefore of making each piece of furniture just as much.

3 A LOOK TO THE FUTURE

WHAT'S **NEXT?**

Regarding the Earth situation, the climate changing, and so on , it is a question worth asking.

At **Cover Styl'**, we think it's quite immoral to throw away a piece of furniture after a few years because it is worn out or old-fashioned.

LET'S MAKE A **CHANGE** AS

WHY REPLACE WHEN YOU CAN UPGRADE ?

As yes when using Cover Styl' you are contributing to help change the world! This is part of making a change, being part of a new thinking generation. Thank you for being part of the change! Thank you for being part of Cover Styl'!
