

CRÈME BRÛLÉE 2018

CRÉPITE COLLECTIVE OUR STORY

One sound. A misty light into the woods. Leading us into the unknown that still feels familiar somehow... We walk, eyes big as those of an owl, with the look of a child who discovers a new playful environment. It's warm & chilly, it's wild & cosy. It is a lucid dream in which we meet explorers and funny beings to interact with. It's the sound lifting our souls and peeling the Layers of Illusion.

It's us. Human beings and friends on a transformative journey that we decided to share together. It's us laughing, it's us crying, it's us sharing and feeling ONE.

From one gathering to another, we connected so deeply around music. We let our emotions flow, accept them and transcend them into Sparkles of Light. Love being the core of each of our cells. Joy being their fluffy coat.

Everytime we share those moments together, we got taken away and dragged into an infinite whirlwind. All the artists we like to listen caught us and stole our hearts for long minutes and filled them with amazing sensations of feeling good, of floating in between Earth and the Universe. We sometimes fell down on our knees with tears of joy, immensely grateful for the luck we do have to experience all of this. They are actually no perfect words to describe this soul-lifting bond.

We are like gold-miners, digging into their trays of sounds, looking for "pépites" (gems). When we find one, we share it. When gathered they "crépité" (splutters). That's what also defines us.

So today, our intention is to give this back. To You. You are from now on included in the "us" we were talking about in the first place. You were actually already.

It is right on time that "Beyond Fears Magic Shines" an artistic and scenographic project conceived the last two years at Crème Brûlée and "Crépité Collective", a group of music lovers gather and connect to embark you on a musical & artistic highlight.

LA VOLIÈRE PROJECT

“La Volière” is a space where the birds gets higher!

We are not a camp, we are not an Art-Car, we are an Artistic Dj-Booth.

The core of our concept is to build a wooden made aviary in which the Djs will play through an open-window to the dancefloor. Here, the birds are free to go, fly and play. But they have a home in which they can feel safe & grounded.

A Tree will be the centerpiece of the bird-house that will be built around it.

We want to work with Nature to create this experimental space. The Tree is alive, central and caring. Beneath and around it, you're enveloped in colors, shapes and sounds to experiment a moment, an emotion, a heart-opening sacred awareness.

A scenography around and on the dancefloor will complete the experience and we will also provide with a comfy nest space in which we'll be able to chill & relax, giving time & care to our bodies to absorb more energy and dance again!

LA VOLIÈRE MOCK-UP

LA VOLIÈRE MATÉRIEL

DECO et LIGHT :

Laser 8watts
Spots LED couleurs
Machine à fumée
Machine à bulle
Guirlandes lumineuses blanc chaud
Perles de fées
Plantes et fleurs artificielles
Tissus en tout genre
Bambous
Bougies led
Markers
