WHAT'S SO SPECIAL ABOUT IBERICO PORK?

Originating from Spain, the Iberico pigs are naturally raised in Spain without antibiotics (also without hormones, which are not allowed to be given to hogs by law). The pure-bred Iberians is known for its beautifully marbled cut. The perfect ratio of fat to lean gives it a rich, remarkable flavor.

This thinly sliced meat is versatile and is naturally flavorful. It tastes excellent and literally melt in your mouth when grilled or boiled in flavored broths.
