

SERTAN VGM-Q

VEGETABLE EXTRACT

Specifications:

Chemical composition: Vegetal extract.

Appearance: Solid in powder.

Color: Light brown.

pH: 4,5±0,5

Tannins: 67,2

General Properties of product family:

Pre-tanning, tanning, re-tanning.

Excellent tanning, retanning and filling power in all parts of the leather, getting the maximum uniformity. Depending on the selected product and the used quantity, ± compact, ± full or ± hard leather will be obtained.

Suitable for all kind of articles when we require full, compact, round, smooth leathers. They consolidate the fibre structure, and give a tighter and smoother grain, good filling.

Better response to dying, improving the intensity and evenness of dyes.

All products in the range are completely soluble in hard water at 40-45°C.

All products in the range are 100% natural, formaldehyde free (0%) and 100% biodegradable.

Product properties:

Good penetration.

Especial to compact the leather in all its area and thickness.

We will get leathers with light colors, light hardness and excellent filling.

Vegetable extracts of universal use for vegetable tanning and retanning.

Guidance dosages:

Tanning (% on pickle weight): 5-45%

Retanning (% on shaved weight): 4-25%
