

Geography Scramble Volume 6

East and Southeast Asia

In this geography scramble, you have seventeen countries to correctly identify. You have two clues to help you identify them—their size/shape and their capital cities. But to find the name of the capital, you have to do some unscrambling first!

Write the name of the country on the top line beside the number and the name of the capital on the second line.

Have fun, and see how many you can get right!

1. _____
Capital: _____
 usole

2. _____
Capital: _____
 kkgabon
