

CITY OF VANCOUVER GREEN BUILDING INITIATIVE

# Use a Heat Pump in your Step 4, 5 or Passive House project and get up to \$22,500!

## HOW DOES IT WORK?

**Share your project's data from planning and permitting to building and occupancy. In addition to the cash support, your project will benefit from:**

### **Research**

Findings from your project will support advancements in scaling near-zero emission homes.

### **Industry Leader**

Case study publications resulting from your participation will position your company as a leader in low carbon building solutions.

Have a Step 4, 5 or Passive House project?  
**Apply at [nearzero.ca](http://nearzero.ca)**
