Your Deva trained stylist will choose between Melt Into Moisture that deeply hydrates and softens extra dry curls or Deep Sea Repair to revive and strengthen damages curls. Your stylist may choose to use with or without heat. This service concludes with a customized styling session. \$

The DevaCut

This revolutionary cutting technique was designed for all natural textures, from wavy to super curly. Hair is sculpted curl-by-curl, while dry, in its natural state according to your lifestyle, personality and preference. This service includes a transformation service and a personalized DevaCurl product prescription that makes it easy to maintain your style at home. \$

How do I prepare for a Devacut?

Your stylist will use our signature dry-cutting technique, so please arrive at the salon with your curls detangled and dry, in their natural state. Prior to your appointment, it's best to let your hair hang loosely; avoid ponytail holders or clips.
