

# WHO WE ARE

Our practice  
offers a full  
compliment of  
rehabilitation  
services.

MacGregor & MacGregor Rehabilitation Services Inc. was established in 2006. We offer rehabilitation to individuals suffering from a wide variety of injuries including catastrophic, ABI, spinal cord, neurologic, orthopaedic and soft tissue symptoms. Our practice offers a full compliment of services including vocational, rehabilitation, occupational therapy, psycho-social counseling, rehabilitation therapy, recreation therapy, exercise rehabilitation, academic and psu support.

Our staff has qualified as expert witnesses in vocational opinion, labour market opinion and future care cost reporting. Additional services include case management of catastrophic injuries and case co-ordination for non-catastrophic clients. We support and provide advocacy at medical financial and educational appointments and return to work endeavors. With locations in Midwestern and Southwestern Ontario, our consultants travel across Canada offering expert opinions.

We are home to the Brain Injury Resource Center Grey/Bruce with the main office located in our Owen Sound facility. The center offers workshops, education, advocacy and support to those living with acquired brain injury and their care-givers.
