

Magers Family Health and Wellness Center

Magers is Open and Can Assist you in Several Ways:

- **Magers is open** 8:00 am – 5:00 pm, Monday-Friday.
- We can help students and employees from their homes with our telehealth visits and also if necessary in person at Magers.
- **Telehealth visits** are standard length visits with our regular Medical Staff, Psychiatrists, Consultants, and Counselors. These are performed by phone from Magers. Our Medical Staff will chart, prescribe, and order as needed using your electronic health records at Magers.
- **If you have an acute need**, that must be seen in person, we can evaluate you in our Immediate Care Clinic for infectious problems and in our upstairs Medical Clinics for non-infectious problems.
- Please call the Magers Receptionist **before** you come to Magers so we can help you decide whether a Telehealth or an in-person visit is best for you.
- Our Pharmacy is **open for drive-through service**. We will supply your prescription and also your non-prescription medication needs in the drive-through. The Pharmacy lobby is closed. Call 836-4050 with your Pharmacy questions.
- The Magers lab, x-ray, and treatment clinic are also open if you need to have these services in person. We have Covid testing available when ordered by your Medical Staff.
- We can help with your safety and ongoing health needs.
- **Call us at 836-4000**
