

# Burna Boy - Solid Lyrics

Yeah

You the type I really vibe with  
So I'll forever keep it solid  
We go public or keep it private, yeah  
Ain't no hesitation about it  
No competition, they ain't got it like you got it  
So I'll forever keep it solid  
We go public or keep it private, yeah  
Ain't no hesitation about it

And if I dey for you, na forever  
We go dey vibe long as we dey together  
Baby, no time, you know it's now or never  
'Cause, baby, the way your body dey bounce no regular  
There's ups and downs, but who said I'm perfect?  
Love is beautiful, but it comes with hurting  
The keys and purses may defeat the purpose  
Love is really deeper than meets the surface, yeah

You the type I really vibe with  
Hold me down, I'll forever keep it solid  
We can go public or move in silence, yeah (Shee)  
It ain't no hesitation about it  
No competition, they don't got it like you got it  
Hold me down, I'll forever keep it solid  
We can go public or keep it private, yeah  
It ain't no hesitation about it

Uh, you know the streets I'm juggling  
But you the only piece I'm puzzling  
Girl, you dey give me peace, no trouble, yeah  
It's your choice, get a Rolls-Royce Cullinan  
You know the bag gotta keep on coming in  
Promise the only time I need to run it up again

I gotta make the streets freeze 'fore the summer end  
I hope you understand, bring you back another win, yeah

You the type I really vibe with  
Hold me down, I'll forever keep it solid  
We can go public or move in silence, yeah (Shee)  
It ain't no hesitation about it  
No competition, they don't got it like you got it  
Hold me down, I'll forever keep it solid  
We can go public or keep it private, yeah  
It ain't no hesitation about it

And if they ask, yeah  
Make sure you don't lack, yeah  
Make sure you on task for it, don't cap on it  
I like it when you brag on me  
This shit deep for real  
Deeper than what they see for real  
I'm playing for keeps for real  
Queen recognize queen for real  
That's me for real  
And they ain't know how to treat you  
They ain't know how to keep you  
Everyone before might as well keep score  
On how to please you, maybe they ain't see you

You the type I really vibe with  
Hold me down, I'll forever keep it solid  
We can go public or move in silence  
Ain't no hesitation about it, about it  
No competition, they don't got it like you got it  
Hold me down, I'll forever keep it solid  
We can go public or keep it private, yeah  
It ain't no hesitation about it

And if I dey for you, na forever  
We go dey vibe long as we dey together

Baby, no time, you know it's now or never  
'Cause, baby, the way your body dey bounce no regular  
There's ups and downs, but who said I'm perfect?  
Love is beautiful, but it comes with hurting  
The keys and purses may defeat the purpose  
Love is really deeper than meets the surface, yeah
