

Joji - Tick Tock Lyrics

Yeah (oh)

Tick tock

Heavy like a Brinks truck

Looking like I'm tip-top

Shining like a wristwatch

Time will grab your wrist

Lock it down 'til the thing pop

Can you stick around for a minute til' the ring stop? Please God

Tick tock

Heavy like a Brinks truck

Looking like I'm tip-top

Shining like a wristwatch

Time will grab your wrist

Lock it down 'til the thing pop

Can you stick around for a minute til' the ring stops? Please God (please God)

As time keeps slippin' away (slipping away)

Girl, don't start feelin' a way (a way)

You and I, we are one in the same

Loving in pain, loving in

As time keeps slippin' away (slipping away)

Girl, don't start feelin' a way (a way)

You and I, we are one in the same

Loving in pain, loving in (the same)

Tick tock, gimme, gimme big bucks

That is all that I do, girl, I just hit the jackpot

I wish you were here with me now so I could feel some

I wish you were here to hold me down like a real one, real one

Live long, wanna be a big shot

Should've stayed away but always had a weak spot

I've been on the road, and I'm sorry for the mix up

If you still love me can you see me during liftoff, liftoff?

As time keeps slippin' away (slipping away)
Girl, don't start feelin' a way (a way)
You and I, we are one in the same
Loving in pain, loving in
As time keeps slippin' away (slipping away)
Girl, don't start feelin' a way (a way)
You and I, we are one in the same
Loving in pain, loving in (the same)

With my hands in the ocean
With my hands in the ocean
With my hands in the ocean, I pray
I pray, oh, I pray
