

THIS DOOR IS OPEN JUST FOR YOU:

Start Your Journey to a Rewarding
Career in Community Health Care

Get Paid Specialized Training from OCHIN

Here's the opportunity you've been waiting for.

Take your first step to a rewarding career in community health care and enroll in a specialized, paid training program offered by OCHIN, a nationally recognized health information technology leader supporting community health centers nationwide.

OCHIN's grant-funded entry-level courses help interested applicants create promising career paths while fostering healthier, more resilient communities. Everyone's invited to apply, regardless of your background or experience, and trainees receive a stipend to help cover living expenses during training.

Why Train with OCHIN?

With online courses combining self-learning exercises with instructor-led, on-demand virtual modules, our OCHIN+ training programs are accessible to anyone. After successfully completing training, we'll connect you with an OCHIN member health center where you'll participate in an on-site, full-time practicum to apply your skills and build meaningful connections.

At OCHIN, we've harnessed the depth of our experience into a community-based recruiting, skills building, and training program called OCHIN+ to enable those with aptitude and desire a pathway to enter the health care field. With our proven track record providing health care technology expertise, hands-on training, and practice-based insights for over 20 years, OCHIN is uniquely equipped to help you gain the skills needed to open the door to a fulfilling, good-paying job in your own community solving real-world challenges in ways that advance health equity.

We acknowledge that this program is made possible through the coordination of and funding from the California Department of Health Care Access and Information (HCAI).

Skills that Get You Where You Want to Go

These paid training opportunities are available in California through a grant-funded partnership with the California Department of Health Care Access and Information (HCAI):

- **EHR Support Analyst Program:** Learn to support a comprehensive electronic medical record system, provide technical insights, and create innovative solutions that help facilitate a higher standard of community care.
- **Health Information Management Specialist Training:** Learn to safeguard and manage the data integrity of a health care organization's electronic medical record system.
- **Medical Billing and Coding Certification:** Prepare for a rewarding medical billing and coding career in a physician's office, clinic, or similar setting.

Take Your First Step: Apply Today!
