

# Trust Bartuf

## For all your retail display solutions

Introducing **MAGMAX™**

Standard Products Brochure Effective from September 2019

**Bartuf®**  
Quality Retail Solutions

Bartuf is one of the UK's leading manufacturers of retail displays, providing high quality, innovative solutions for news, magazines, confectionery, greeting cards and much more to the biggest names in retail.

Established in 1995, Bartuf offers expertise in the design, manufacture and installation of display solutions via its UK production facilities.

Bartuf's multimillion pound turnover business has been built around the provision of the very best customer service which is reflected in its long standing client relationships.

Bartuf's portfolio of off-the-shelf solutions are all manufactured from polyester – a material which is 100% recyclable, highly durable and very eco-friendly. The extensive range of display equipment allows flexibility and choice when it comes to creating your in store selling space.

\*All hang-on shelving systems carry our unique 5 year guarantee (subject to our standard conditions)

The products in this brochure have been designed to offer you the very best retail display solutions in all categories. With a large range of innovative displays from wall and gondola bays to dedicated freestanding displays we are confident you will find something to match your requirements.

**If your project requires a bespoke approach, our highly experienced in-house design team can work with you to develop your ideas into a viable solution that will deliver on maximum return once in-store.**

**No Returns:** Under our standard terms and conditions we do not accept return of goods. Any items to be returned **must be agreed by the business**, prior to the products being returned and only in exceptional circumstances. We do not accept returns of items that have been cut to a specific size.

**Powder Coating Charges:** Powder coating charges will apply for any products required in a specific colour, which are not included in our latest brochure, subject to quotation. Please e-mail Bartuf with your request.

## Next day despatch (available upon request)

Many of our products are available as next day despatch when ordered before 12.00. **Look out for the product codes highlighted in green.**

For all other products, availability will be stated at point of order. Please see order acknowledgement for confirmation.

**S** May require up to 3 week leadtime.

## Guide for Bartuf standard UK carriage charges for bays or larger items

# LED Under Shelf Lighting Proven to Increase Sales by up to 8%

**Reduced power consumption to traditional lighting by 70%**

The BARliteLED™ range of products, specialising in retail display lighting, is a high quality solution which brings a retail environment to life and creates a modern look to your store design whilst keeping running costs to a minimum.

Retail display lighting has proven to increase sales in many categories ranging from magazines, confectionery, wines and spirits to cosmetics. The BARliteLED™ product has many benefits including its slimline size which allows you to position this lighting in almost any display.

Using premium quality LED's, the BARliteLED™ system is guaranteed to bring your products to life.

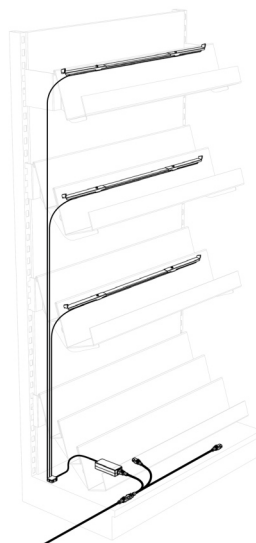

## Illumination

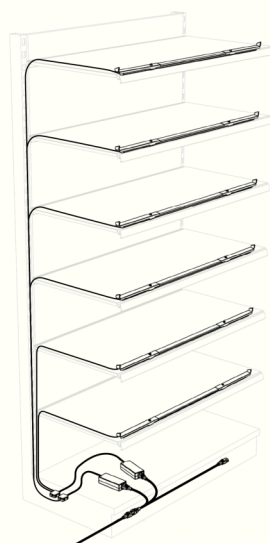

These complete kits allow you to install LED illumination into many wall and gondola displays as supplied by Bartuf plus the majority of branded metal backing systems.

### Install up to 4 lights per bay

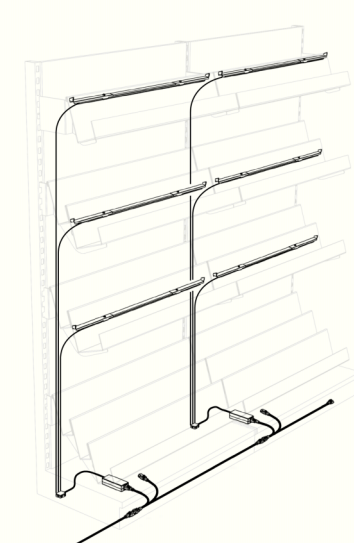

- Ideal for magazines and newspaper bays.
- This option brings your display to life using the minimum amount of components.
- Simply order the individual packs as detailed, for example, if you need 3 lights in your bay, order the triple lighting pack to the width required.

### Install up to 8 lights per bay

- Some displays require more than 4 lights per bay, such as confectionery and beers, wines and spirits. You can add up to 8 lights 1 bay using 2 lighting packs.
- For example, if you need 6 lights in one bay, order two triple lighting packs to the width required.

### Linking bays together

- The three way mains power linking lead (supplied with all packs) allows you to run up to two lighting packs per bay and also link your mains power to an adjacent bay.
- You can run up to 6 bays all running quad lighting packs from one 13AMP socket.

The brackets supplied with these packs fit the shelving brackets on magazine, newspaper, confectionery, greeting cards and metal shelf displays. There are 3 sizes of fitting available which give the options to fit bay widths from 600mm to 1330mm.

Available as either single, twin, triple or quad LED light fittings to suit the application.

Very simple to install, these LED lighting packs can easily be linked together to allow you to run up to 6 consecutive bays from one 13AMP socket.

For more detail on the BARliteLED™ system visit [www.barliteled.co.uk](http://www.barliteled.co.uk)

### What's included...?

- LED light bars and low voltage power leads
- 240v to 12v transformer with 4 way low voltage power distribution
- 3 way mains power linking lead
- Mains power lead
- Pair of wall/gondola display fixing brackets per LED light bar
- Cable management conduit

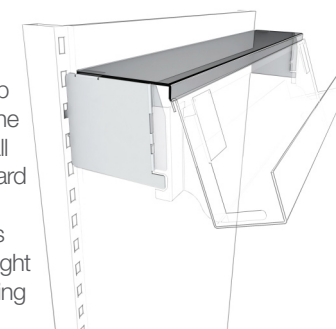

### Bay Widths

600-800mm (lightbar length 500mm)	900-1000mm (lightbar length 750mm)	1200-1330mm (lightbar length 1050mm)
---	--	--

	Single	Twin	Triple	Quad

### Top Tier Illumination

The top tier illumination bracket provides a unique product enhancement solution for the top section of your magazine bay. The lights are extremely easy to install and can run in series with standard BARliteLED's (BARliteLED not included). A protective top cap is included that both protects the light and prevents any magazines falling down the back of the system.

# 4 Queue Management

## Increase Sales Opportunities

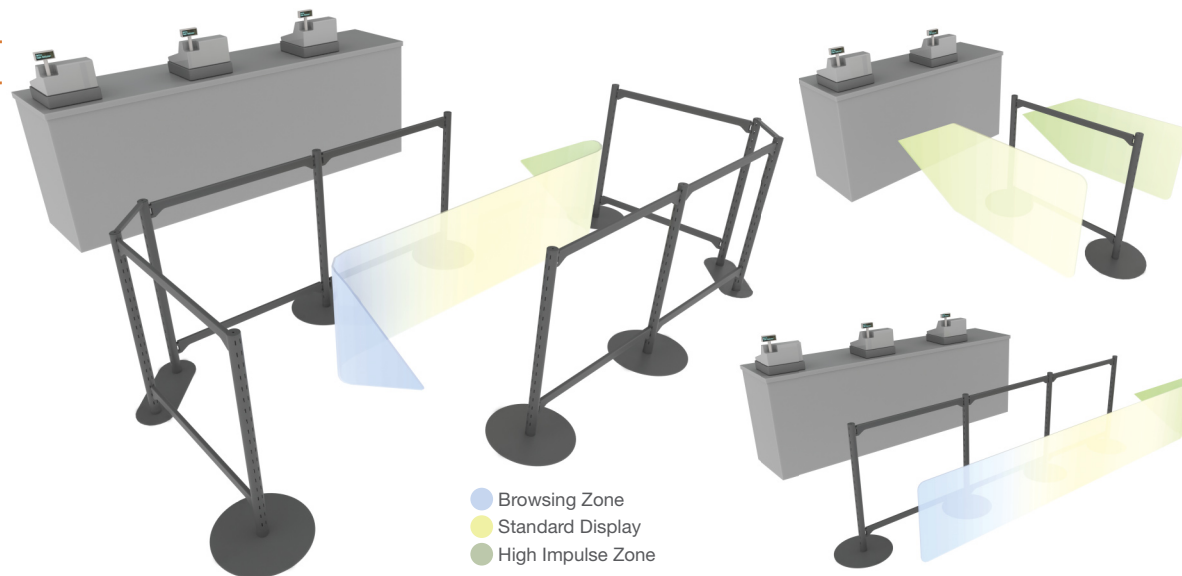

Introducing an in-queue display system is an excellent method of increasing sales on the average basket spend by enticing further impulse sales at the till point.

## Understanding the product mix in your queue really can help drive sales.

Short queue systems are best planned to display high impulse items only. On longer walk through configurations a large range of product can be introduced ranging from having a browsing zone through to high impulse products near to the exit point.

As a customer passes through a queue system the time to browse product diminishes the nearer they get to the exit point, this needs to be reflected in the product choice for certain zones.

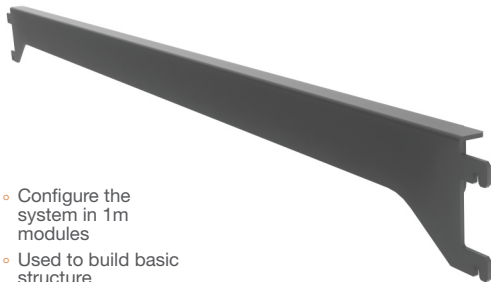

The System

Comprising of only uprights and tie bars, the assembly of the sub structure is very simple keeping installation times to a minimum

- Robust steel construction ensuring longevity in the harshest of retail environments
- Finish: Anthracite as standard, other colours available on request

Tie Bars

- Configure the system in 1m modules
- Used to build basic structure
- Minimum of either 2 bars or 2 fixed shelves per bay run
- Check individual products for tie bar requirements
- One tie bar can typically fit up to 6 eurohooks

Width	Code	Price
Standard Tie Bar		
1000mm	N171219	£POA

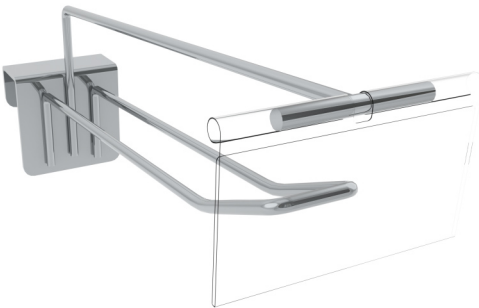

Uprights

- 1000mm/1200mm upright height options - slotted uprights to hang display add on shelves such as confectionery and magazines
- 50mm pitch slotted uprights

# MAGMAX™

## Make your space work harder

### MAGMAX™ offers the following benefits:

- **Profiles to suit your product mix:**  
Standard / Range / Flexi / Comic
- **Profiles to make your space work harder and maximise sales**  
MagMax offers real space saving displays that are suitable for your business.
- **Ability to combine magazines and Flexi-News to the same unit**
- **Retain linear display without compromising the quality**  
Preserve a linear display as MagMax can be combined with the older Bartuf Display Units.
- **Simple self assembly**  
With no tools required, each display can be built in just a few minutes.
- **A quality Bartuf product you can trust**  
Easy to purchase, prompt delivery, long lasting, and great value.

The BARliteLED™ range of products, specialising in retail display lighting, is a high quality solution which brings a retail environment to life and creates a modern look to your store design whilst keeping running costs to a minimum.

### The Right Decision

Built on years of industry knowledge and working with some of the leading retailers and wholesalers, Bartuf have developed a large range of shelving options and bay configurations to help you get the ultimate magazine display for your store.

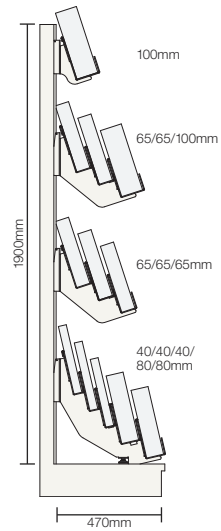

\*All hang-on shelving systems carry our unique 5 year guarantee (subject to our standard conditions)

Increase sales by adding LED illumination  
(see page 04 for details)

# Newspapers

## A Display for Everyone

The newspaper category is of utmost importance when it comes to driving footfall into your store. Quite often a primary reason for a shopper to visit, the display of newspapers must deliver highly on presentation and product availability.

### The Right Decision

With today's demands on retail space, choosing the right display for your store is paramount to the success of selling newspapers. Whether you make the decision to put newspapers on a wall bay or have them in a freestanding unit, Bartuf's choice of display solutions will guarantee to deliver success in this category.

# FLEXI-NEWS™

## The Newspaper Display for today

No matter what newspaper demand your business has, Flexi-News has a solution to suit. Founded on 24 years of news display experience coupled with the latest market insight, the features of the Flexi-News range are second to none.

### FLEXI-NEWS™ offers the following benefits:

- **Great product visibility**  
Huge 'front page' impact for your key titles, with added shelf space flexibility for higher range, lower volume display.
- **Shelf depths for today's 7 day market**  
Optimum display for mid-week and weekend news volumes.
- **Built-in display shelf flexibility**  
Unique to your store – full face, or interleaved the choice is yours to maximise those sales.
- **Space saving solutions**  
**FLEXI-NEWS™** offers real space saving displays that are right for your store.
- **Simple self assembly**  
With no tools required, each display can be built in just a few minutes.
- **A quality Bartuf product you can trust**  
Easy to purchase, prompt delivery, long lasting, and great value.

From **FLEXI-NEWS™** freestanding to vertical news, selecting your display has never been easier:

1. How many copies do you need to display?
2. How many facings do you require?
3. What space / location do you have in mind?

With **FLEXI-NEWS™** the conclusion you reach will always be the right one for your store.

There's no better time to plan for your updated newspaper display.

# Confectionery and Snacking

## Maximise your product visibility

Confectionery and snacks are products that demand extra visibility and a clean display to increase sales. Due to our many years experience Bartuf have developed confectionery and snacking display solutions designed to suit your needs and help you achieve your goals.

### 1 Dual angle display shelving

Display your confectionery products on either a flat or angled shelving system all with one shelf using the Bartuf unique hook in system.

### 2 Unique design

Using the same bracket system as the confectionery shelving, the snack shelving incorporates a dedicated shelf which not only allows you to quickly bulk merchandise the display but also has an integral front display riser to hold a single pack.

### 3 Extensive range of sizes

From 150mm to 450mm deep shelving and any width from 650mm to 1250mm making it easy for you to tailor your confectionery display to your exact requirements.

### 4 All shelves include SEL's

One thing less to think about when ordering your confectionery display, all shelves come supplied with a 39mm SEL as standard.

### 5 Petg shelf material

Selected for its excellent clarity and strength.

### 6 Universal fitting

The hook detail on all Bartuf brackets has been designed to fit into the majority of backing structures found in today's retail environments.

### 7 Illumination

The BARlitLED™ lighting system has been designed to easily fit any Bartuf confectionery shelf. Adding illumination not only brings a 'wow' factor to your display it is also proven to increase sales. See page 4.

### 8 In store trials

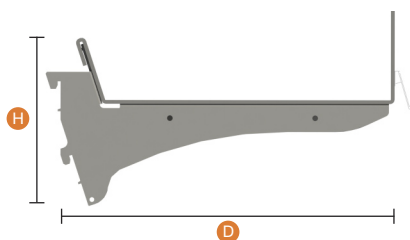

Proven to increase sales by over 20% when compared to wire baskets.

Products highlighted **green** are available for next day despatch

# Gondola Side Display

## Creating Display Space

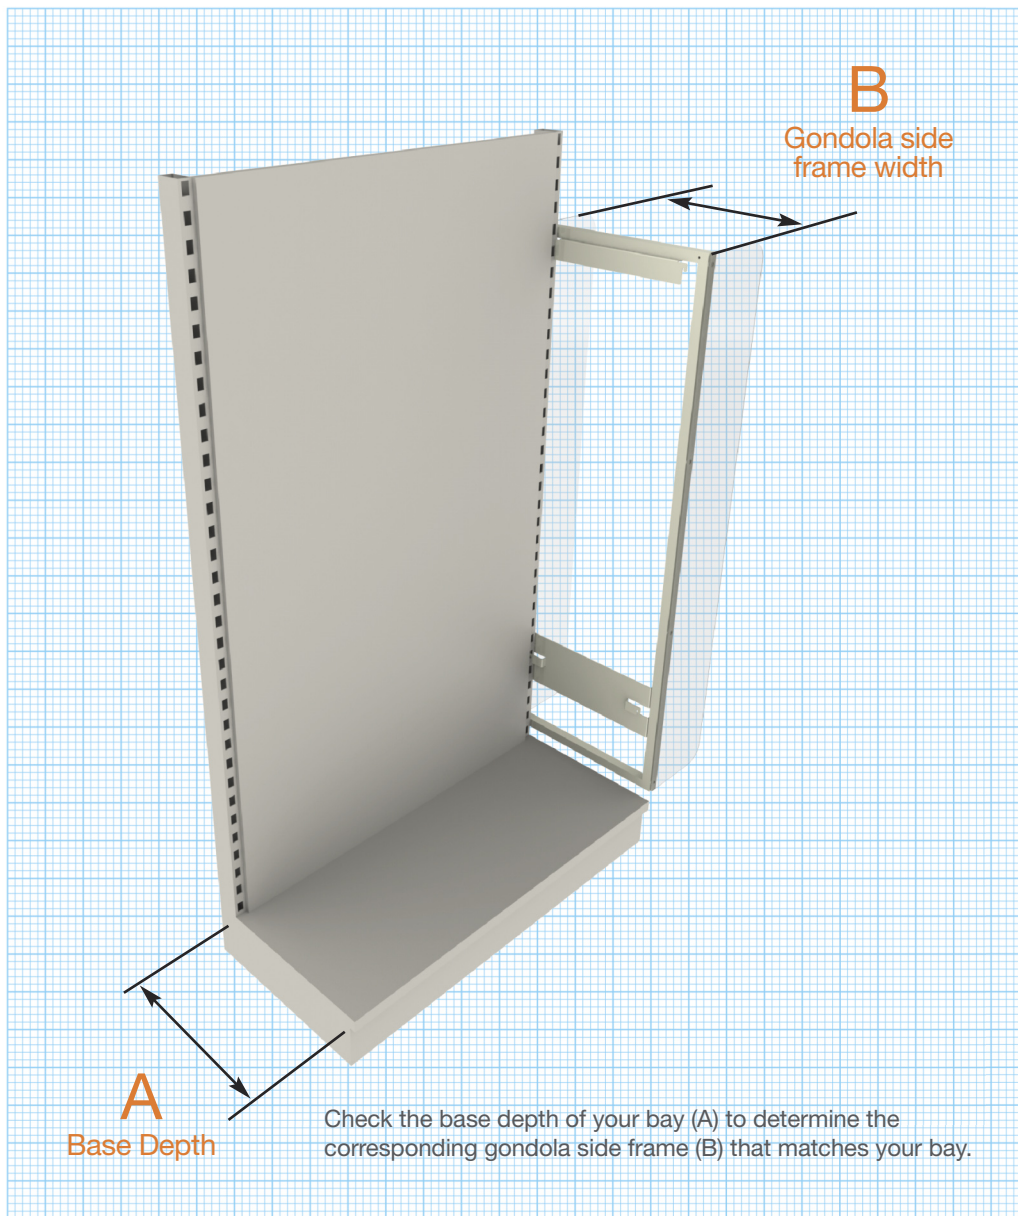

Create additional selling space in your store with the Gondola Side Display. With no impact on floor space, this simple to fit display solution can bring the ends of a gondola to life whilst maximising your impulse sales opportunities.

A unique design of fitting gives the gondola side display a universal fix to most gondolas and a range of sizes allows you to get the most from your display space.

With a range of shelving displays to fit, the gondola side display is ideal for promoting impulse sales on categories such as magazines, confectionery, snacks, greeting cards and much more.

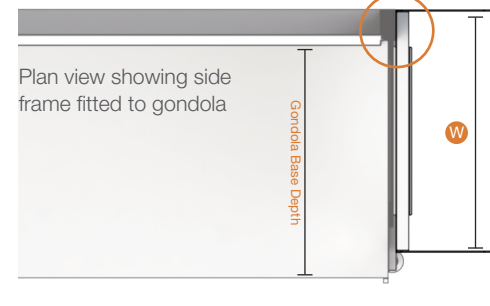

## Size Guide

Two sizes of Gondola Frame offers flexibility to fit gondola base depths of 400mm and 500mm.

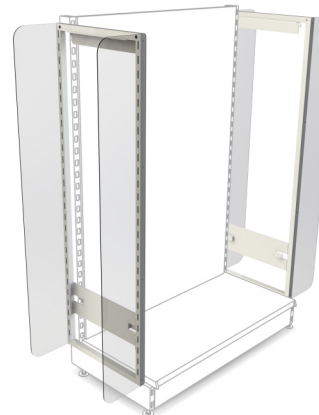

**W 470mm - K071279**  
(to fit **gondola base depth** of 400mm and above)

**W 570mm - K071237**  
(to fit **gondola base depth** of 500mm and above)

**Note:**  
Gondola side frame width overlaps upright of existing gondola

## Universal Fitting

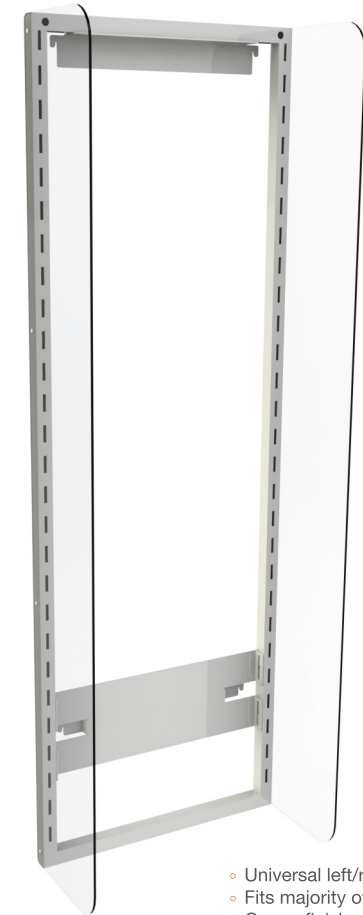

### Simple to order

One bracket design fits both left and right hand side of gondola end.

## Gondola Side Frame

B1

- Universal left/right hand fit
- Fits majority of backing systems
- Cream finish metal frame
- Petg side wings
- Slotted frame 50mm pitch

# Trust Bartuf

## For all your retail display solutions

The quality of the product and the excellent service have been the main reasons for the long-standing relationship between Storefit and Bartuf and I have no hesitation in recommending the product or the company to any potential clients.

Eamonn Brien, Storefit

Costcutter has specified Bartuf display equipment for over 15 years, during this time their quality and service have been exceptional. They are always innovative in design and their products really robust and easy to install, making them our automatic preferred choice

Antony Downing, Costcutter

We tried working with other companies, but Bartuf's products, services, and quality are from a different league!

Sami Haddad, Little Moons
