

# BCU Livestream Show notes 9-8-2021

In this stream I will show you the custom key shortcuts that you can use to make your radio much easier to use everyday. After you do this for yourself, you will truly enjoy your radio!

## Cheat Sheet

1. Press Green to enter, press P2 to go back
2. Change your "Ch.Name" from "FREQ" to "CH"
3. Change "CH Color A" and "CH Color B"
4. Change "Zone Color A" and "Zone Color B"
5. Change "Sub Ch Hide" to "Sub Ch Off"
6. Change "Key PF1 Short" to "Tx Power"
7. Change "Key P2 Long" to "Sub Ch Hide"
8. Change "Key P1 Long" to "Scan"
9. CHange "Key PF1 Long" to "Digi Monitor"
10. Change "Key PF3 Short" to "FM Radio"
11. You can find your own GPS coordinates in the "GPS Info" menu.
12. Create a Hotkey for Talk Group Disconnect (Requires the CPS)

## Potential problems

1. Overwriting a button that you already use for something else.
2. Turning on VOX in a noisy environment.
3. Older radios might look different but should have the same options.
