

2024

The Highlights

2024 has been another year of sustained growth for our Hedging Solutions distribution platform. We expanded both our service offerings to new asset classes and our footprint to multiple new jurisdictions.

The large number of clients who chose to join us throughout the year validates our strategy, and we are both proud and grateful for the trust they have placed in us. We look forward to building strong partnerships with them in the years to come.

David Cohen
Head of MAREX Hedging Solutions
