# Kansas Legislative Session Final Report & Voting Record

Produced by the Chamber's  
Public Policy and Advocacy Committee

Dear Chamber Member:

You have told us advocacy is one of the most essential services the Overland Park Chamber of Commerce provides our community. We are one of the few chambers of commerce in Kansas to publish a detailed summary of important legislative votes cast on business issues to provide you vital information before filling out your ballot.

No voting record tells the complete story of a legislator's attitude and actions on issues of importance to business. This voting record does not capture unrecorded votes or the numerous votes that occur in committee. It's not uncommon for a bill to contain multiple issues, which can create difficult voting decisions for lawmakers and even more difficulty for us to truly assess how a lawmaker feels about the individual elements of a bill. In recent years, fewer recorded votes and increased use of conference committee reports further complicates the process of evaluating lawmakers' views on specific issues.

For these reasons, a voting record such as this should be a starting point – not your final analysis – as you consider a lawmaker's support or lack of support for pro-business issues.

This voting record is based on the Chamber's legislative agenda issues that you, our members, have told us are important to your businesses. The agenda was carefully reviewed and discussed by our Public Policy and Advocacy Committee, our Board of Directors and its Executive Committee. Please read this Voting Record thoroughly - let it spur continued dialogue with your elected officials and guide your decision-making process at election time. Note there are instances in which we must consider the overall or net effect of proposed legislation in determining the Chamber's position on individual issues.

On behalf of the Overland Park Chamber of Commerce and its members, we thank all the members of the Johnson County Delegation for their hard work and dedication this legislative session. They often are required to make difficult decisions and sacrifices to fulfill the responsibilities of their elected offices.

For information about the Chamber's advocacy efforts or participation in our Public Policy and Advocacy Committee, please contact Kevin Walker, Senior Vice President of Public Policy at (913) 766-7602 or [kwalker@opchamber.org](mailto:kwalker@opchamber.org).

Overland Park Chamber of Commerce

*The Chamber recognizes the technological infrastructure of the Kansas Department of Labor is outdated and produced challenges for businesses and workers as they interfaced with the Department during the recent pandemic. The State of Kansas should prioritize updating technological systems to minimize inefficiencies and provide taxpayers with greater return on their investment. The Chamber supports reasonable and equitable modifications to the Unemployment Trust Fund to ensure balances that protect unemployed workers while balancing the costs placed on businesses. Modifications should respect the established experience ratings and not negatively impact businesses that have earned strong experience ratings.*

*The Chamber strongly encourages lawmakers to support, protect and enhance proven economic development and workforce development programs that are critical tools used to stimulate employment and leverage private investment that provide stability and predictability and require accountability. The Chamber supports effective economic development incentives that help Kansas retain and recruit high-quality jobs and high-quality employers.*

## **FINAL ACTION ON SB 14**

The Chamber supports the adoption of timely, targeted, and temporary liability protection for businesses providing equipment and supplies or otherwise engaging in commercial activity during declared emergencies.*

## **MOTION TO CONCUR WITH HOUSE AMENDMENTS TO SB 50**

Senate Journal Page 487; Passed 30-10 (3/30/21); Vetoed by Governor 4/16/21; Veto Overridden 5/3/21

Requiring marketplace facilitators to collect and remit sales, compensating use and transient guest taxes and prepaid wireless 911 fees, removing clickthrough nexus provisions, providing for addition and subtraction modifications for the treatment of global intangible low-taxed income, business interest, capital contributions, FDIC premiums and business meals, expanding the expense deduction for income taxpayers and calculating the deduction amount, providing the ability to elect to itemize for individuals, providing an exemption of unemployment compensation income attributable as a result of identity fraud, removing the line for reporting compensating use tax from individual tax returns, extending the dates when corporate tax returns are required to be filed, increasing the Kansas standard deduction and providing for an extension of the corporate net operating loss carryforward period.

*The Chamber supports tax fairness and believes that local businesses should be treated equitably with out-of-state and virtual entities in regard to the collection of sales tax, compensating use tax and transient guest taxes. The Chamber supports legislation to require remote sellers to collect and remit sales and compensating use taxes on sales to Kansas residents, such legislation and implementing regulations to include reasonable threshold exemptions and otherwise be consistent with the guidelines set forth in the U.S. Supreme Court's ruling in *South Dakota v. Wayfair*.*

*The Chamber supports reinstating the income tax expensing deduction for non-corporate businesses for the costs of placing certain tangible property and computer software into service in Kansas. Repeal of this deduction was included in the 2012 state tax changes as part of what is commonly referred to as the "LLC exemption." However, when the LLC exemption was subsequently repealed in 2017, reinstating income tax liability for those non-corporate businesses, this deduction was inadvertently not reinstated, allowing individual taxpayers to elect to itemize deductions on their state tax income tax returns even if they elect to take standard deduction on their federal income tax returns.*
