# Our STORY

---

More than forty years ago, Robert 'Andy' Gordon walked into a ten by eight-foot tin shed, picked up a lump of clay and turned his potter's wheel. Robert Gordon Pottery was born. But the story and inspiration for the business date long before 1979 and a rickety homemade studio.

Robert's mother, the renowned Australian potter June Dyson, set up her studios in 1945. June formed a formidable partnership with her husband Collin, who became the company's business director.

From his early twenties, Robert was eager to help out in his parent's studio and it became inevitable that one day he would follow in his mother's footsteps. And having married his English wife Barbara, the couple set about moulding their dream.

By 1987 it was time for the company to expand. A studio in Pakenham was bought and Robert Gordon had grown from a tin shed with a dirt floor to a large purpose build headquarters. It was also time to bring new staff into the business. Andy and Barbara didn't have far to look, with their children joining the business. History had repeated.

As a new millennium dawned, the company needed to keep up with market demands and Robert Gordon Pottery became an importer too. Designs dreamed up at the Pakenham HQ were sent off-shore to be crafted by highly skilled potters into pieces that have become part of the company's popular collections. The evolution guarantees that Robert Gordon can today offer Australian made and Australian designed imported products, to its customers.

A love and passion for pottery have been handed down from June Dyson to Robert and his children. The family immersed in the world of ceramics for more than 75 years. And the story continues.

Robert Gordon. Proud of its past. Its future; fired with imagination.

# Trusted by *top chefs.*

For over seventy years, restaurants across the world have been serving food on Robert Gordon wares. Ask any chef and they will tell you that food looks better on a Robert Gordon plate. High quality, top design and the ability to custom create means that we are the best in the business.

We use either high fired stoneware, porcelain, or new bone china in our ranges. High fired porcelain is extremely durable and is used day-to-day throughout some of the busiest hospitality venues around the world. Stoneware equally shares great durability and versatility making it perfect for the retail and hospitality setting. Both bone china and new bone are perfect for high tea collections and the like where intricate pieces are required.

TERRA DINNERWARE / SALTBUSH

---

Great crockery, along with interior design, lighting, staff uniforms, and all the other many details, are what makes a restaurant. But it is the intimacy in which the chef works with pottery that has all the hallmarks of a love story. A great chef cannot work without a perfect canvas, and the right kind of canvas can make or break a dish.

## Adelaide | Dinnerware

Natural & eclectic, the Adelaide Collection from Robert Gordon consists of a reactive glaze finish on embossed porcelain. Reactive glazed edges and embossments create an incredible color contrast, ultimately framing the food presentation.

*Designed in Australia, Made in China.*
