

Are you looking to boost office morale,  
reduce stress, and even increase productivity?

*LET DOGS INTO  
THE OFFICE!*

# OK, WE KNOW IT'S NOT ALWAYS THAT SIMPLE OR EASY, BUT HEAR US OUT...

According to a recent PDSA report, 95% of UK pet owners say owning a pet makes them happy, and with more than 12 million dogs now in homes across the UK since the start of the COVID-19 pandemic, we want to make our team and colleagues feel motivated and happy to be back in the office, and having their dog with them could be a big part of that!

Studies show that having a dog in the office could increase productivity, allowing employees to take small breaks to recharge their mind, as well as encouraging teams to get outside for quick breaks and take in some fresh air.

**But how can we make having dogs in the office work for everyone? Keep reading...**

**FRESH AIR + SMALL BREAKS = A HAPPIER LESS STRESSED WORKPLACE = MORE PRODUCTIVE WORKFORCE!**

## 'DOGGIE ROTAS'

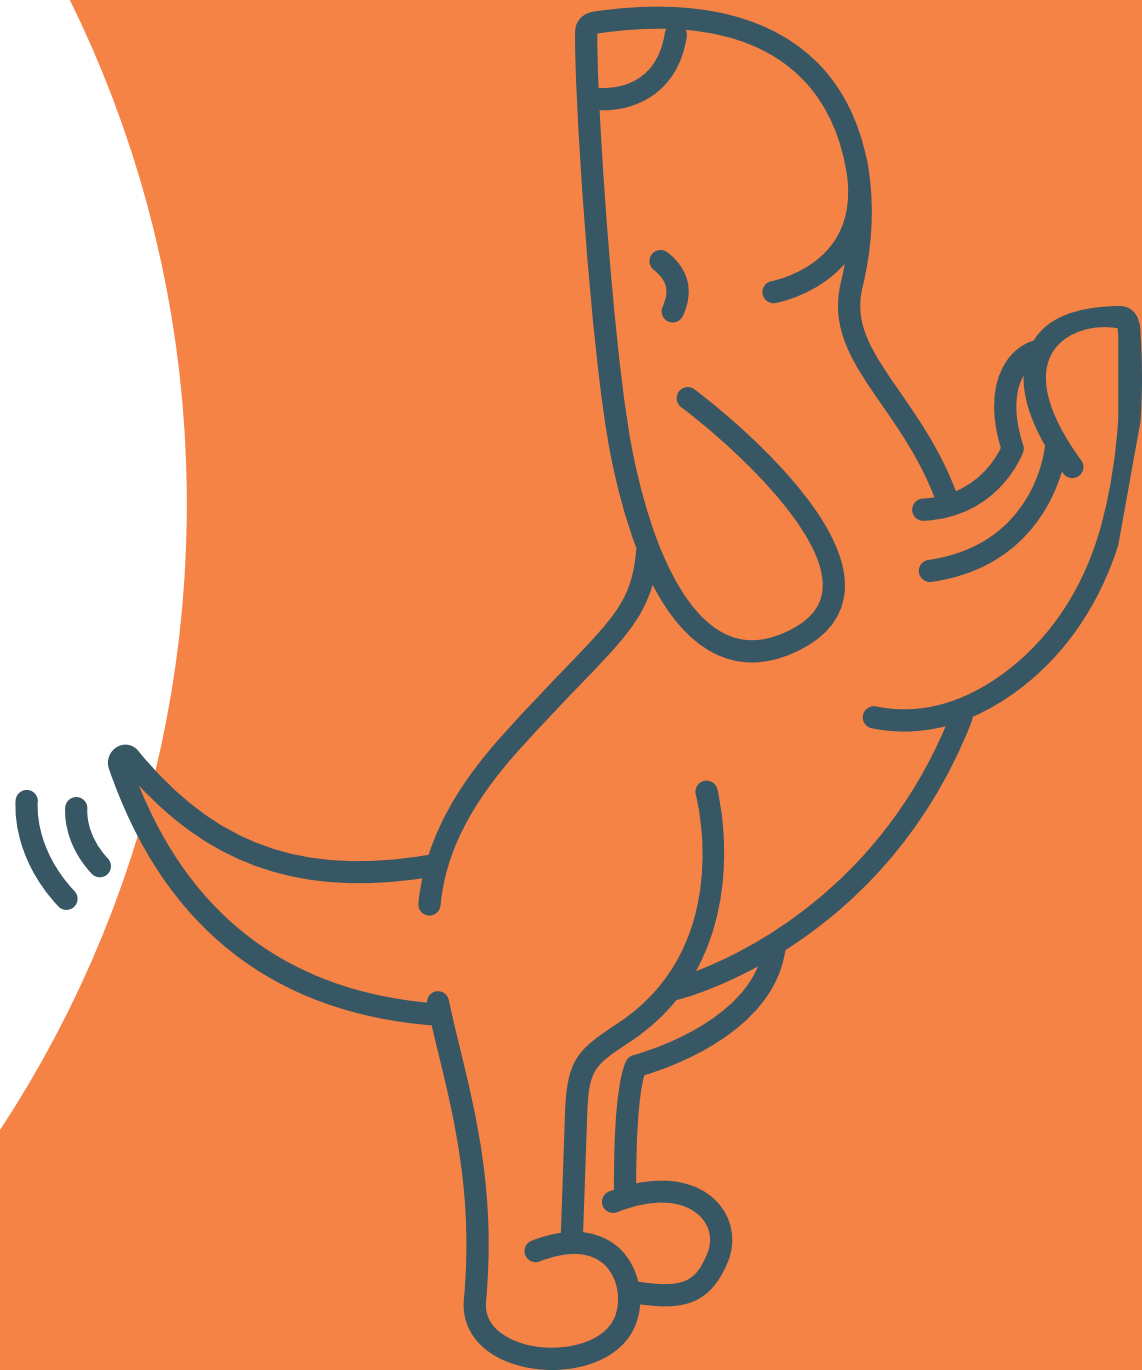

Across our clients we have teams who have 'doggie rotas' of which dogs will be in each days, we have clients who have a no-dog area of their office, we have clients who have one day of the week where dogs are encouraged to come in and others who open their doors to all pets all the time (it does get a bit interesting when the parrots come in!).

Whatever you decide to do we want to make sure that the dogs feel welcomed and your teams recognise the benefit of being able to bring their dog to the office and have positive associations with the business as a result.

## THAT'S WHERE WE COME IN!

We've got decades of experience in dog behaviour and creating great relationships between people and dogs!

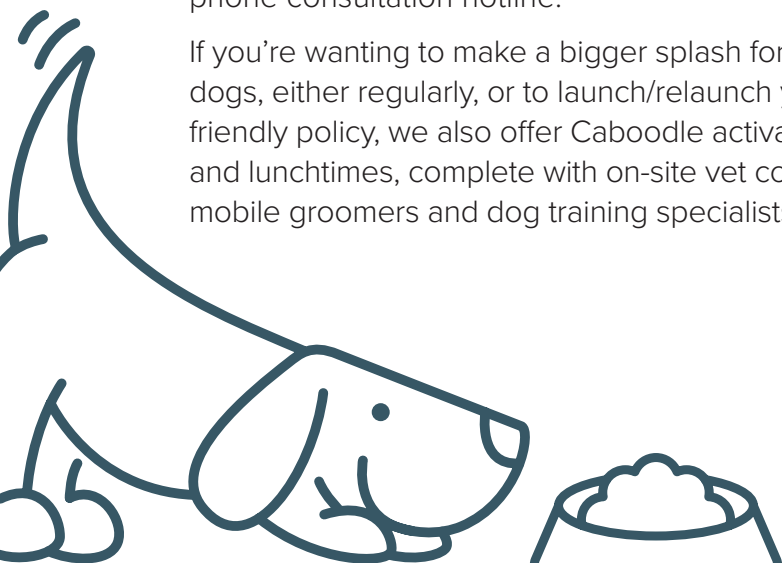

# DON'T LEAVE HOME WITHOUT YOUR DOG'S 'PACK' LUNCH

No trip out for a dog is complete without their lunch box, a dog having the right food at the right time of day will dramatically improve their behaviour, ability to listen and of course their health.

At Caboodle we offer daily food boxes which have everything a dog needs for the day. From their food, treats and chews (all vital for ensuring good behaviour whilst at work), poo bags, water bowl to an office vet phone consultation hotline.

If you're wanting to make a bigger splash for your office dogs, either regularly, or to launch/relaunch your dog-friendly policy, we also offer Caboodle activation mornings and lunchtimes, complete with on-site vet consultations, mobile groomers and dog training specialists.

# WE'D LOVE TO TALK TO YOU...

If you're ready to get your workforce excited about being at the office with their four legged friends, we'd love to talk to you. Take a look at our initial packages below and get in touch.
