ABOUT US BEHIND THE BRAND

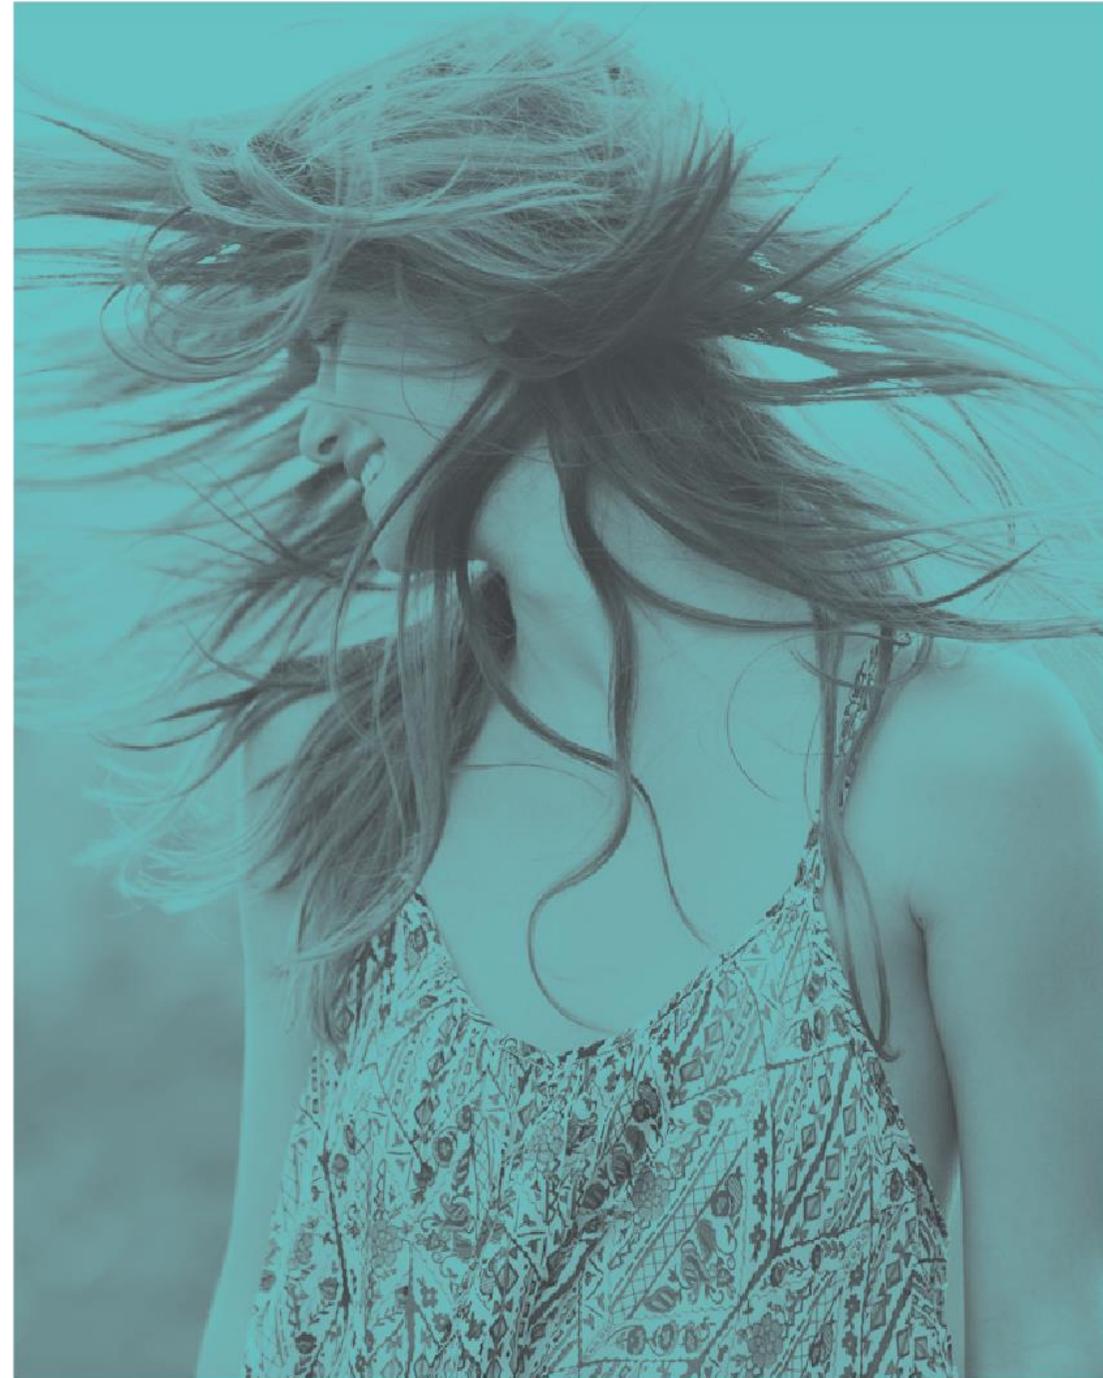

THE COSMETIC REPUBLIC is a hair care company born in Barcelona. We combine the best active ingredients with the latest research and development discoveries to provide unique hair care products. Our passion for healthy looking hair has made us number #1 in capillary solutions in five continents.

The best way to maintain healthy hair is to use natural formulations and avoid chemically processed products. In that sense, we have developed a **paraben & sulfate free** product line that respects the scalp's natural balance. Selecting the best raw materials and studying their potential, we extract the maximum benefit.

Our patented formulas use **microtechnology** and go through a **cold-pressed** production process, which makes them more effective. At the same time, we enrich them with essential vitamins to ensure healthier and stronger looking hair.

At **THE COSMETIC REPUBLIC** we keep innovating to offer the market unique hair solutions to balance hair's every day challenges. The devotion of our exceptional team is reflected in each one of our products. Listening to the needs of our customers, our team delivers unparalleled, cutting-edge, hair treatments.

We are hair health experts!

THECOSMETICREPUBLIC

LONG-TERM SOLUTIONS GENETIC HAIR TEST

All people lose hair, between 70 and 100 hairs a day; however, hair loss is considered to be a problem (alopecia) when more than 100 hairs fall per day. The causes are many, but the most important is attributed to genetic factors (androgenic alopecia or AGA), which represents 90% of cases.

Properties:

The tendency to suffer AGA detected early can prevent partial or total loss of hair and help maintain a good hair health. For this reason, we put at your disposal this *Genetic Hair Test* that allows to:

- ✓ Detect the risk of androgenic alopecia.
- ✓ Provide personalized recommendations based on the level of risk.
- ✓ Prevent partial or total hair loss.

Box content:

- Container for saliva test
- DNA stabilizer
- Airtight transport bag
- Shipping envelope
