Purpose of the Meeting:

The American Medical Isotopes Production Act of 2012 (AMIPA) (Subtitle F, Title XXXI of the National Defense Authorization Act for Fiscal Year 2013 (Pub. L. 112-139)), enacted on January 2, 2013, directs the Secretary of Energy to carry out a technology-neutral program to support the domestic production of the medical isotope Molybdenum-99 (Mo-99) without the use of highly enriched uranium. As part of this program, AMIPA requires DOE to develop a program plan and annually update the program plan through public workshops. NNSA implements this requirement through the Mo-99 Stakeholders Meeting.

Tentative Agenda:

- U.S. Government Mo-99 Program and Regulatory Updates
- Mo-99 Producer Updates
- U.S. Mo-99 Supply Status – Industry Perspectives
- Open Discussion and Q&A
- Tours of Molybdenum-99 Production Projects (In-Person Only)

Public Participation:

The meeting is open to the public. It will be held strictly following COVID-19 precautionary measures.
