

## Electric Fence Energizer connection to Ajax

This solution will alert users when there is an electric fence alarm activation, via the Ajax app and the user will be able to switch the electric fence energizer on and off using the Ajax App.

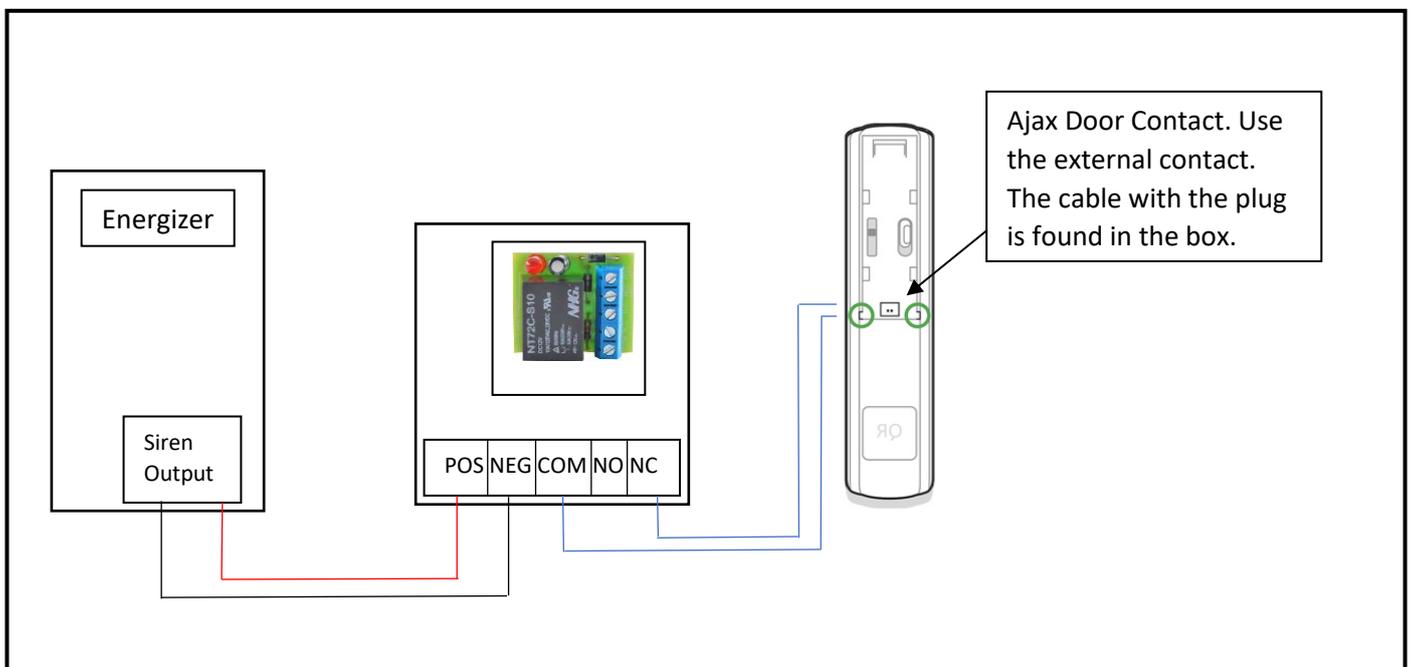

### **Components that will be needed:**

1 X On-board Single Pole ACDC Relay

1 X Ajax DoorProtect

1 X Ajax Relay

Alarm notification connection.

Switching the electric fence energizer on and off connection. The Ajax Relay will need to be set to Bistable.
