# HYBRID COMBO TENSIONER BB

The heavy duty hybrid combo tensioner BB is a combination of a tensioner and an insulator all in one. This tensioner is placed on the corner post by using a free standing S-hook and isolates the wire from the corner post.

## Features:

- A hardy heavy duty tensioner for all weather types
- Can tension up to a 2.5mm steel wires
- It eliminates galvanic reaction between dissimilar metal and eliminates rust
- Can be used with any type of wire
- Uses a ratchet tensioner to tension the fence

## Specifications:

| | |
|---|---|
| Material | UV stabilised glass filled nylon |
| Spring Tension | Maximum 120kg |
| Operating temperature | -40 to 80°C |
| Operating voltage | 0 - 12KV |
| Recycling | SPI 7 |
