

TINNED COPPER HT CABLE (S-SERIES)

The S-Series tinned copper high voltage electric fencing insulated cable is used as a lead out cable from your energizer to the electric fence and for all other insulated high voltage transmissions. These high voltage cables can be used with all the Nemtek galvanised wires. Available in single core or multi core options.

Features:

- Slimline design for ease of installation and an aesthetically pleasing look
- Cable is made up of tinned copper stranded wires for more flexibility and ease of use
- The multi core S-Series reduces installation time
- 30m multicore cables are suitable for Wizard 2, Wizard 4, Merlin 4i, Druid 13LCD, Druid 15LCD, Druid 18LCD, Druid 25LCD and Druid 28LCD energizers
- 100m multicore cables are suitable for Wizard 2, Wizard 4, Merlin 4i, Druid 13LCD, Druid 15LCD and Druid 18LCD energizers
- Max distance of multicore cables suitable for Merlin M18S and Merlin M28S is 15m
