

SEASON'S
Greetings

These stamps can be put together in any combination or layout to create a one of a kind holly image.

Just use the outline and color in yourself.

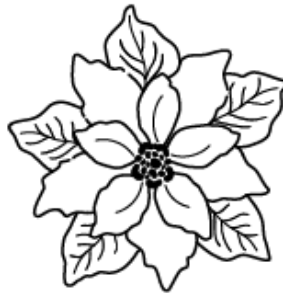

You can stamp each set of leaves/berries in color of your choice and leave with large white outlines.

After stamping in the colors of your choice you can add the outline to the top of your stamp creation for a different look.

HAPPY
Holidays

Just use the outline and color in yourself.

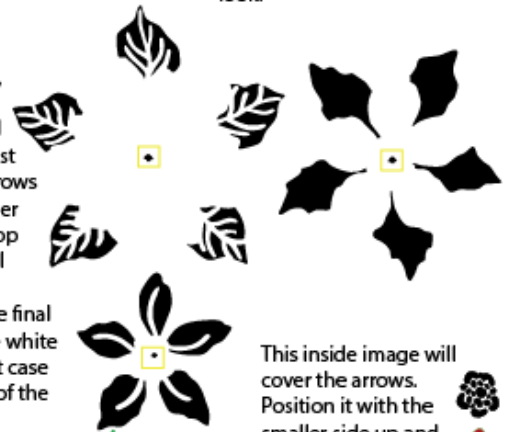

You can stamp each set of leaves/petals in color of your choice and leave with large white outlines.

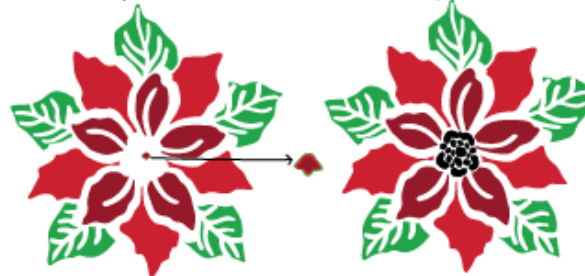

After stamping in the colors of your choice you can add the outline to the top of your stamp creation for a different look.

When stamping the poinsettia, I have arranged it so that it will be easier to line up for the final image. Just start with the largest leaf image. Notice the small arrows in each of the layered leaf/flower stamps. Just line these up on top of each other to create the final image that the outline will fit. Or you may not want to use the final outline and just leave the large white areas around the flower. In that case you will stamp the inside area of the to complete the look.

This inside image will cover the arrows. Position it with the smaller side up and the larger side down.

Top
Larger side is on the bottom.
