## MORNING STAR #1 — INTERIOR PAGE PREVIEW

# JOURNEY BEYOND SPACE, TIME, AND IMAGINATION!

## AN INTERVIEW WITH TIM DANIEL, "DB" ANDRY, AND MARCO FINNEGAN

**Beneath the supernatural, reality-bending tale of *Morning Star*, what's at the very core of the series?**

- **Daniel:** We had a desire to tell a story about the role and importance of a father in a family, and what happens to that family when the father's sudden absence creates a vacuum.
- **Finnegan:** It's really about a grieving family that's trying to stay together despite their world falling apart around them.

**Sounds like this story takes on difficult real-life situations with a lot of heart! Are you drawing from personal connections to tell this tale?**

- **Daniel:** Absolutely. The idea of not being here for my daughters – naturally, that would be my greatest fear in life. Both of the child characters in *Morning Star* show resilience and resourcefulness, and my hope is that, if my daughters were to lose me, they would be able to exhibit those same traits.

- **Finnegan:** The kids in the story are inspired by my own son and daughter, in spirit if not in actual likeness.
- **Andry:** I try to put some of myself into every character I write. This is a family dealing with loss, each in their own way. I tried to look inward, to see how I've dealt with things in my past to color each of the characters in *Morning Star*.

**What can you tell us about the look and feel of this story?**

- **Daniel:** Expect a period piece that opens as a haunting/ghost story and closes as something entirely different. It's somewhere along the lines of *Poltergeist*, *E.T.*, and *Close Encounters*, and yet there's nothing else like it on the shelves.
- **Andry:** The art and coloring style capture the feel of comics made during the time period that the story is set. The art style is classic and the coloring is slightly offset, so it looks like it was sent through a printing press that occasionally misses the mark. Totally authentic and unique!

## THE FUTURE IS FUNGAL!

### AN INTERVIEW WITH WRITER/ARTIST OLIVER BLY

**We've heard *The Mushroom Knight* is a fantasy story that takes place in our reality, as opposed to an ancient world or far-off galaxy. Can you tell us more about the setting of the book?**

The Mushroom Knight is set in The Wissahickon, a preserved area of woodland in Northwest Philadelphia that is so incredibly immersive, you may, at times, forget the grit of the city is just a step away. During the conceptualization of the book I took long walks there daily and let some of its magic take personified form in my imagination. While I was doing this groundwork I noticed some neighborhood children began leaving little "faerie houses" around the walking trails. Someone would leave the house, and others would leave pieces of precious bric-a-brac, dollhouse furniture, etc., until the groundskeepers who manage the land would discard the "trash". Or, come to think of it, perhaps the miniature inhabitants had their fill of gifts, and made their domiciles invisible to us once more.

**Who are our main characters, the Mushroom Knight and Lem, and what motivates them?**

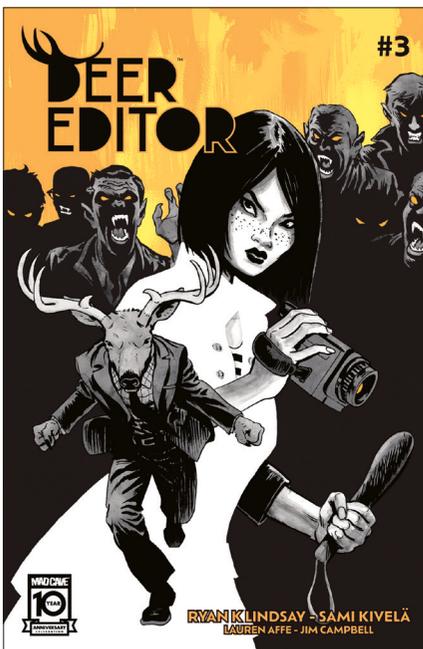

Gowlitrot, the Mushroom Knight, is a curious and prim little faerie creature that values reason, kindness, and balance. Most of all, he values life, and is sworn to protect the ecology of life.

Along with his companion Lem, he will embark on a path that will unearth perilous challenges to himself and to the foundation of our collective realities.

Lemuelle "Lem" Clemmons is a shy human girl searching for her missing dog, and Gowlitrot meets her during his adventures. She often feels endangered, and hides important pieces of herself as a result. She gravitates to people that she can feel comfortable with over those who she may have more in common with. There is something curious about her that allows her to tap into the invisible world of sprites and gnomes hidden in The Wissahickon.

**What kind of audience do you foresee enjoying the delights and wonders of *The Mushroom Knight*?**

This is a whimsical yet eerie, simple yet spiritual story—something (hopefully) wise dressed up in cartoon clothing. Similarly, I see it resonating with fans who enjoy fantasies that have something interesting moving under the surface tropes— things like *The Sandman*, *Fables*, and *Neon Genesis Evangelion*. I also think readers interested in mycology, environmental justice, nature, psychology, and esotericism would find this story winking to them as well.

## SUMMERTIME FRIENDS VS. TREASURE THIEVES!

### AN INTERVIEW WITH STEVE ORLANDO AND KATIA VECCHIO

What motivated you to embark on the journey of creating *Silver Vessels*?

- **Orlando:** After the success of developing *Exorcists Never Die* with Mad Cave, we wanted to challenge ourselves with a pivot to Young Adult, and see if we could apply our shared imaginations to a completely new genre and medium. What does adolescence look like today? What do families look like? And even more so – what is the real point of hunting treasure in today's world? I connected with that feeling of teenage life, the unique time where one is on the cusp of discovering so much about oneself and the world, but also thinks they've already got it all figured out. There are aspects of me in every character of *Silver Vessels*, even the antagonists!
- **Vecchio:** *Silver Vessels* and its characters brought back memories from my childhood when my family and I used to spend summers in the countryside. Together with my siblings and the neighborhood kids we would often search for abandoned houses. We felt like little explorers, just like our heroes, Josh, Hope, and Hunter.

What's the real treasure in *Silver Vessels* that you hope readers take with them after reading it?

- **Orlando:** I want our readers to feel hope, joy, fear, introspection, compassion, and pride. The key here is to celebrate the time in between youth and adulthood. Teenage life is always a quest for treasure, it's just that the treasure's different for everyone!
- **Vecchio:** I hope readers feel the friendship, loyalty, and self-love that radiates from our protagonists, and that this story can promote a world where diversity is cherished and the beauty of nature is safeguarded.

Who's most likely to join the treasure hunt in *Silver Vessels*?

- **Orlando:** Readers who enjoy stories like *Lumberjanes*, *Beast Boy Loves Raven*, and *Percy Jackson*!
- **Vecchio:** Fans of comic books like *This One Summer* and movies like *The Goonies* and *Stand By Me* will appreciate *Silver Vessels*!
