

GPU COMPATIBILITY

Ghost R1 MkII

LOUQE AB
Lövgatan 30 169 32 Solna Sweden
hello@louqe.com www.louqe.com

FITTING THE GRAPHICS POWER YOU NEED

The Ghost R1 has a maximum graphics card support of up to:

4-Slot: 80 (H) x 160 (W) x 348 (D) mm

While a GPU may fall within the listed dimensions, fitment can still be affected by factors like PCIe power connector placement or how measurements are specified by manufacturers. This list highlights cards known to work in the Ghost R1 and any potential limitations. Although we can't test every model on the market, our goal is to expand this list as much as possible—and we'd appreciate your help in doing so.
