

CAPABILITY STATEMENT

Moving Australia's Biggest Projects

Heavy haulage | Oversize transport | Pilot escorts | Project logistics

Who We Are

Brisbane-based. Australia-wide. Built for bigger loads.

Mega Heavy Haulage specialises in Australia-wide oversize transport, heavy haulage and project logistics for wide loads, mining equipment, construction machinery and critical freight.

We combine experienced operators, pilot escort coordination, route planning and practical project management to help clients move complex loads safely and reliably.

CAPABILITY SNAPSHOT

Transport, escort, logistics and storage solutions for complex freight movements.

Why Clients Choose Mega

A practical partner for complex moves, not just another truck on the road.

01 Planning first

Route assessments, permits, escorts and timing are managed before the load moves.

02 Safety and compliance

Cargo, road users and infrastructure are protected through risk-aware execution.

03 Project mindset

We coordinate with authorities, site teams, contractors and stakeholders.

04 Reliable delivery

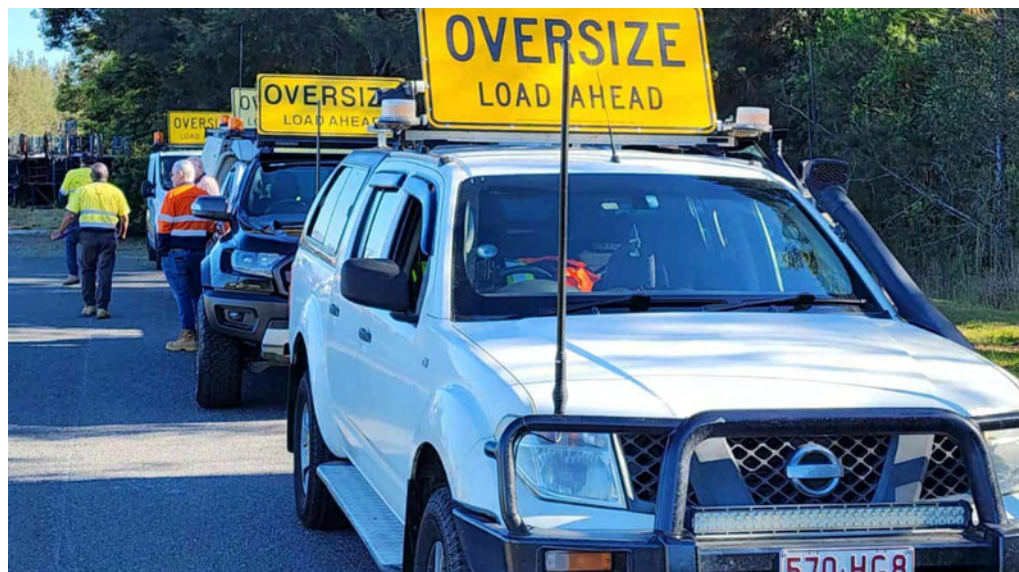

Focused on moving critical freight safely, professionally and on schedule.

05 Flexible solutions

From heavy machinery and wide loads to storage and end-to-end logistics.

06 Direct communication

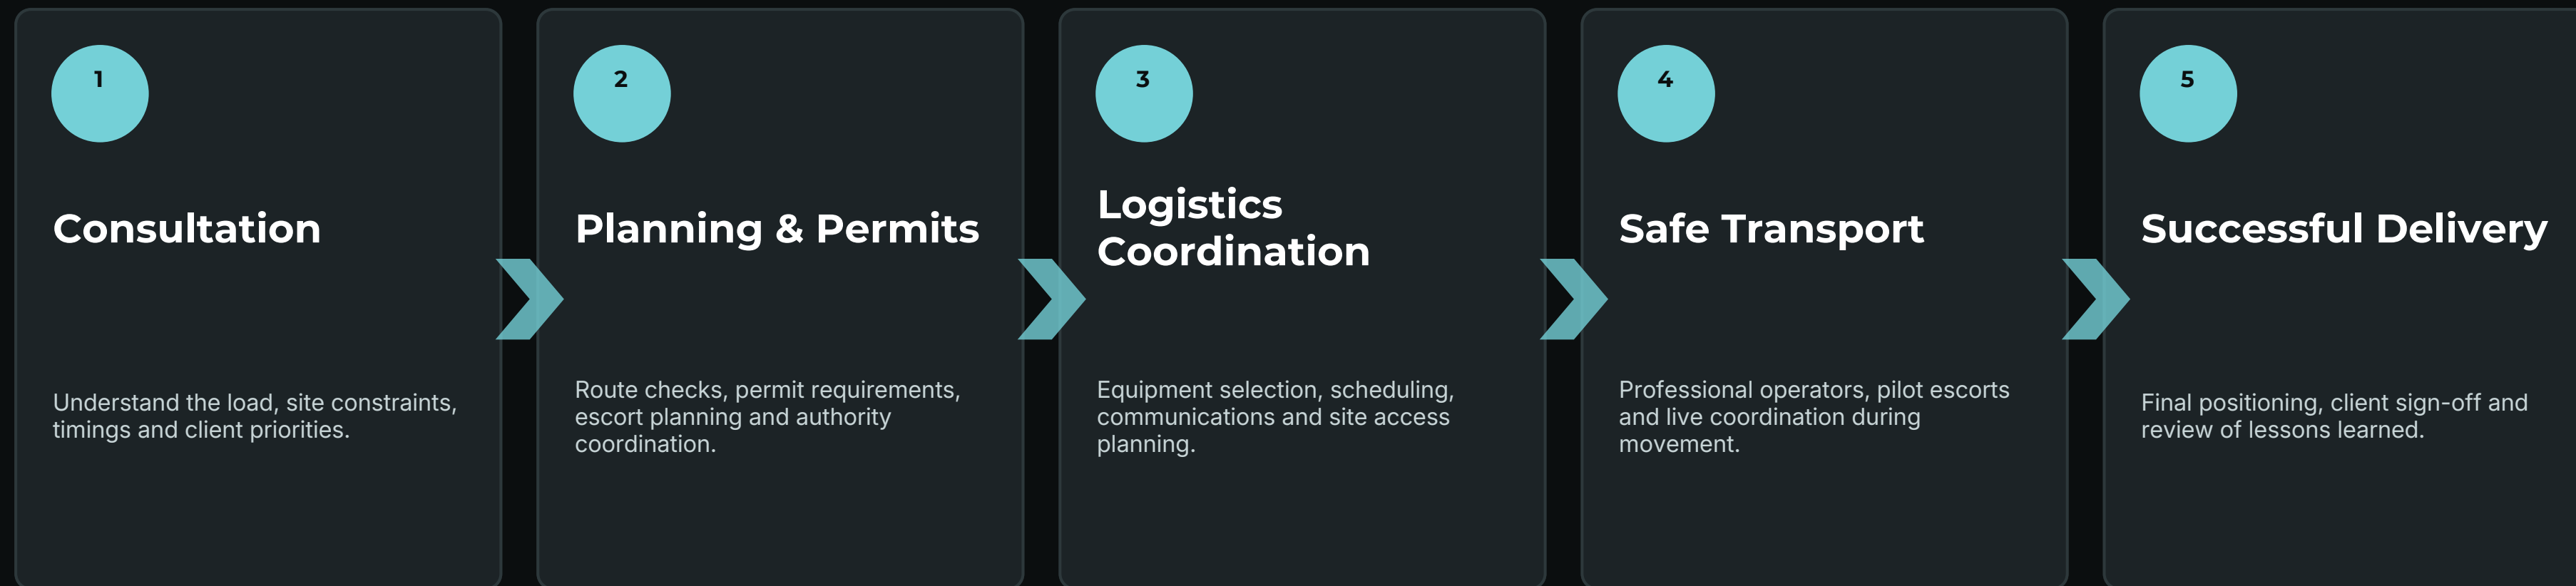

Clear contact point and responsive coordination from quote to delivery.

The Mega System

A five-stage delivery process for safer, smoother heavy haulage projects.

Moving Australia's Biggest Projects

Core Capabilities

A coordinated service mix for heavy, wide and complex movements.

Heavy Haulage

Oversized and overweight load transport requiring experienced operators and specialised planning.

Oversize Transport

Wide and over-dimensional movements managed with route planning and escort support.

Project Logistics

End-to-end coordination from origin to destination across complex supply chains.

Pilot Escorts

Professional escort services for wide loads, long loads and over-dimensional freight.

Machinery Transport

Mining equipment, construction machinery, farming equipment and industrial components.

Storage Solutions

Short-term and long-term storage support for large equipment and materials.

PROJECT CAPABILITY

Oversize & Heavy Haulage

Wide, heavy and high-value freight moved with experienced planning and careful execution.

- ✓ Oversize/overmass movement
- ✓ Load restraint and safety focus
- ✓ Route and timing coordination
- ✓ Reliable end-to-end communication

PROJECT CAPABILITY

Pilot Escort Capability

Professional escort support for wide loads, long loads and over-dimensional movements.

- ✓ Escort coordination
- ✓ Visibility and traffic control
- ✓ Local and state authority coordination
- ✓ Movement timing support

PROJECT CAPABILITY

Infrastructure & Bridge Beams

High-impact civil and infrastructure work demands strong planning, stakeholder communication and reliable delivery.

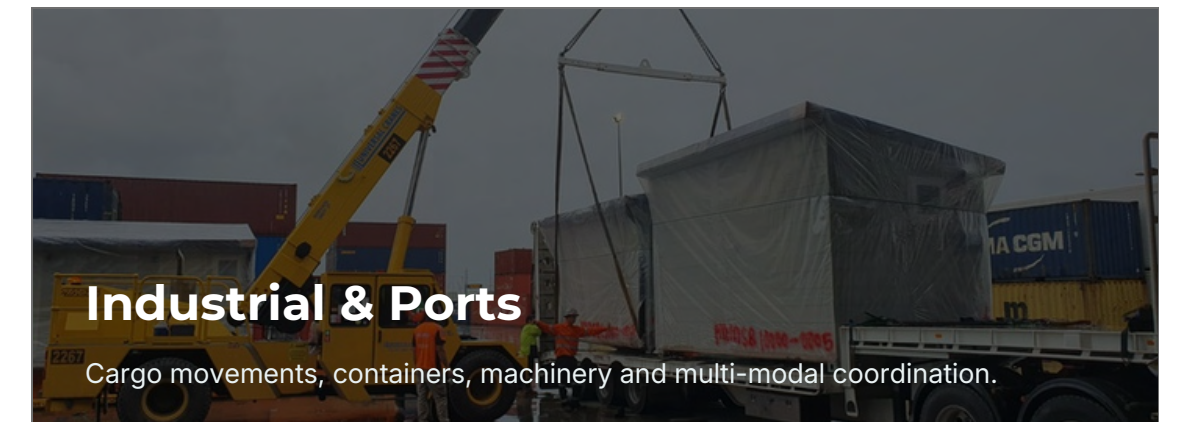

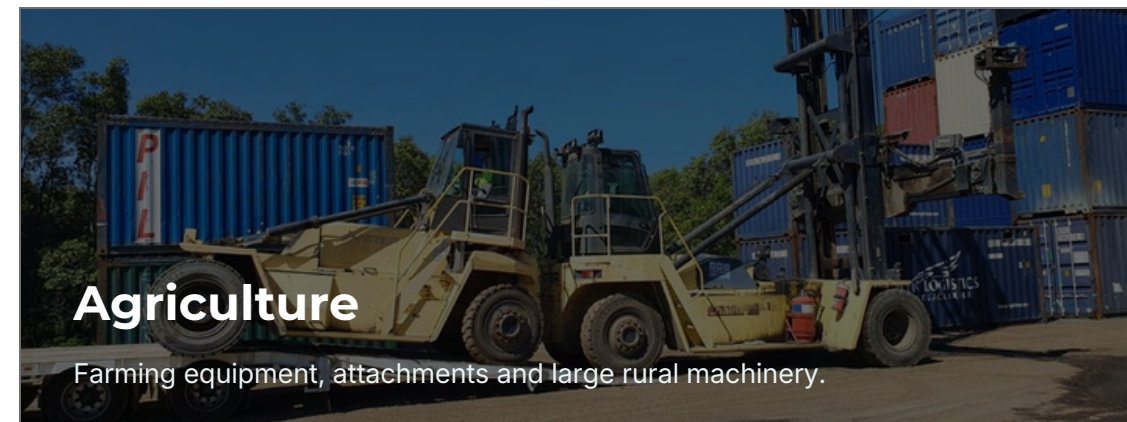

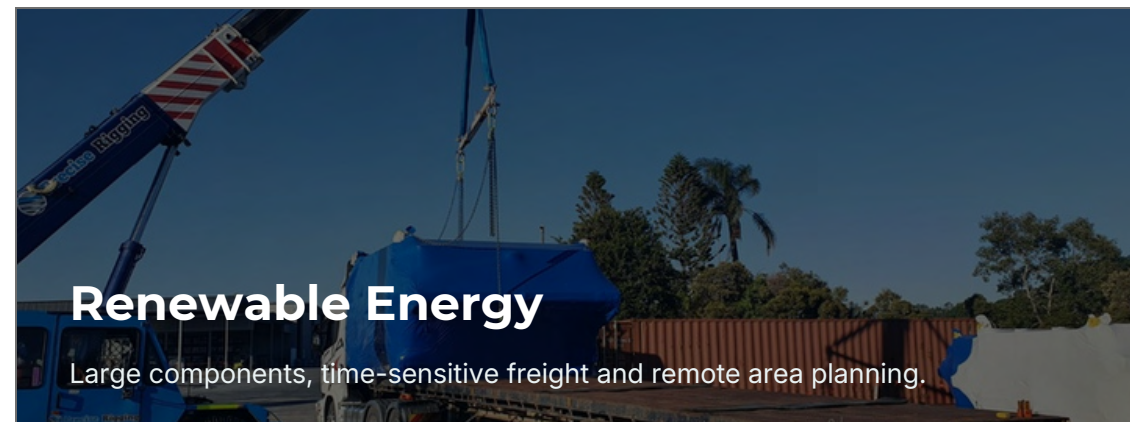

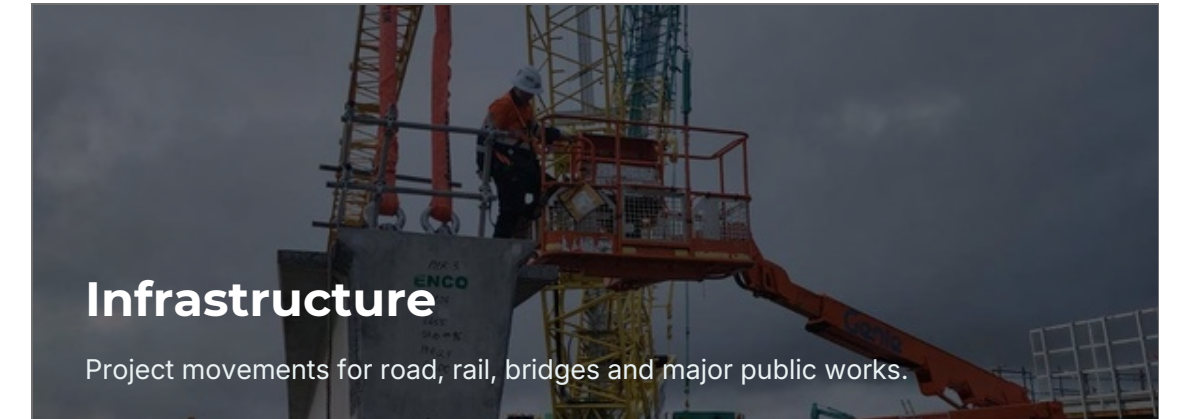

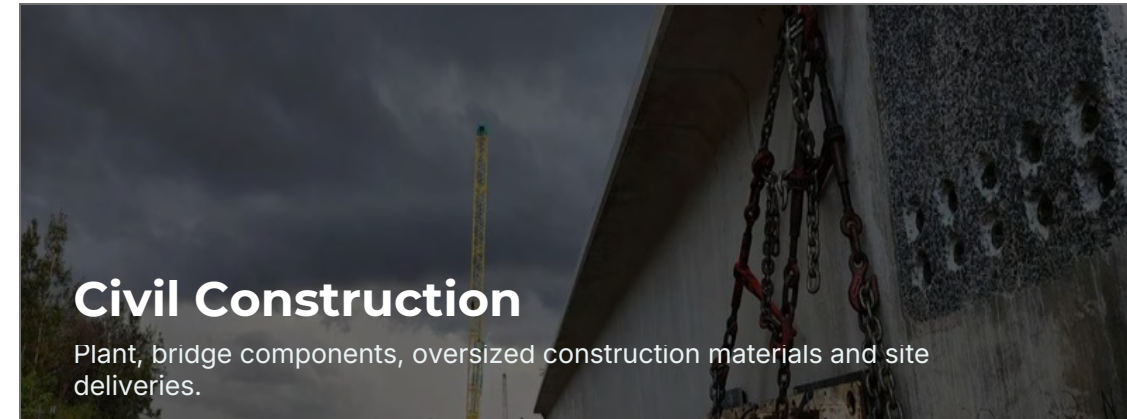

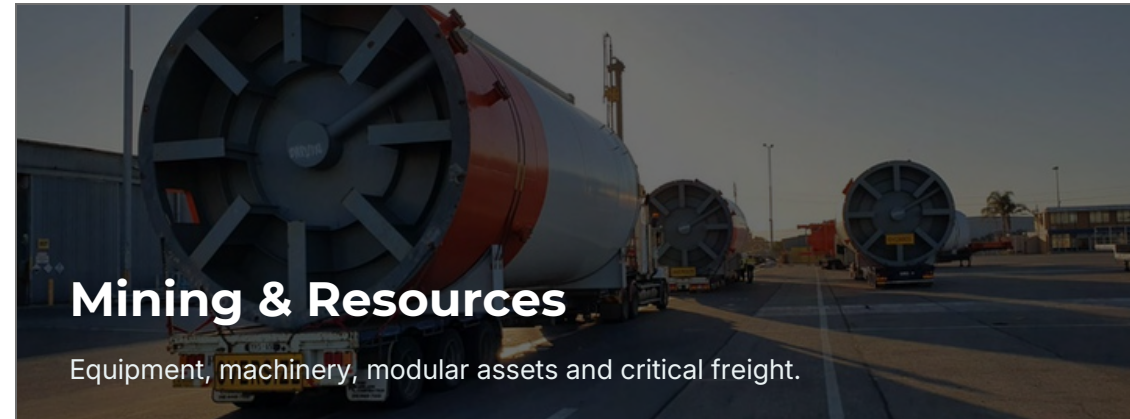

- ✓ Bridge beam movements
- ✓ Major project coordination
- ✓ Site access and lift planning support
- ✓ Safety-first execution

Industries We Support

Transport and logistics solutions for sectors where planning, safety and timing matter.

Safety, Compliance & Coordination

Complex moves need discipline before, during and after the haul.

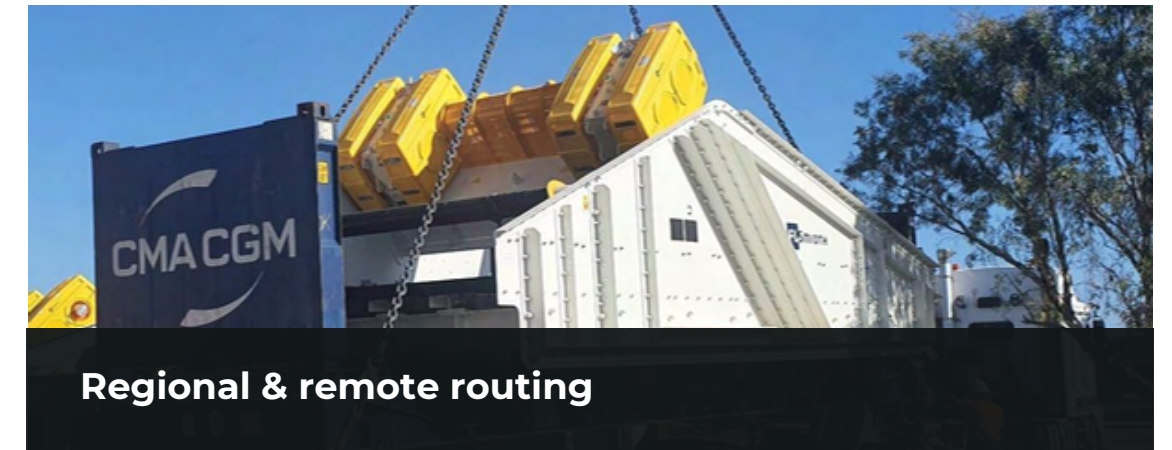

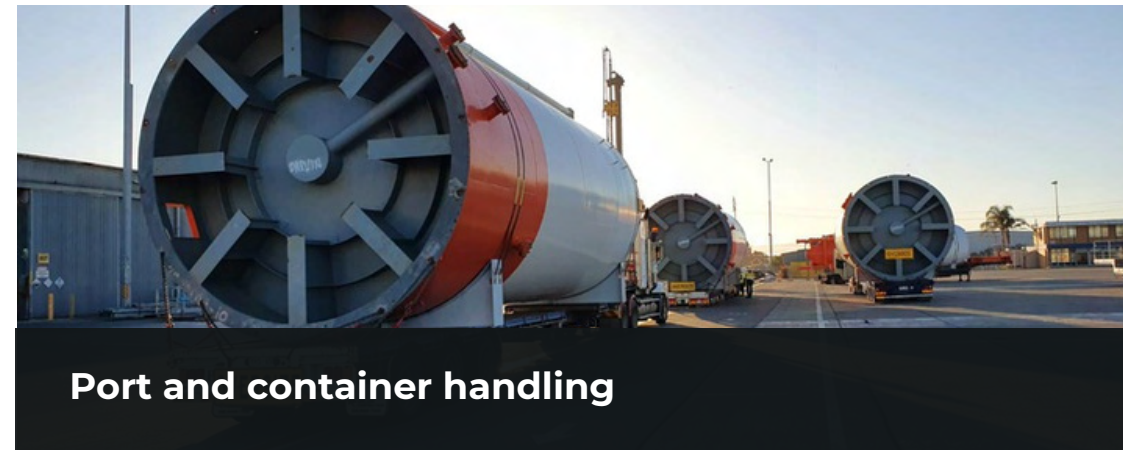

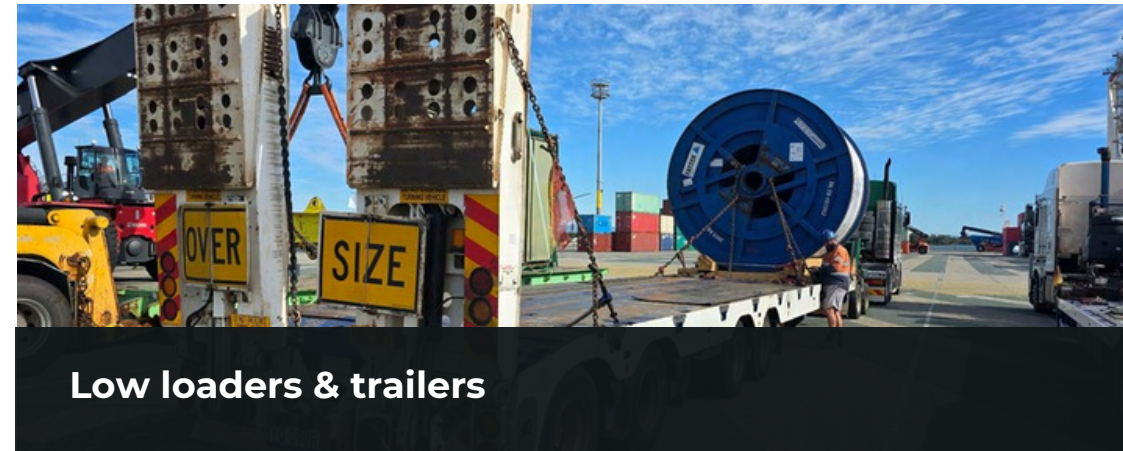

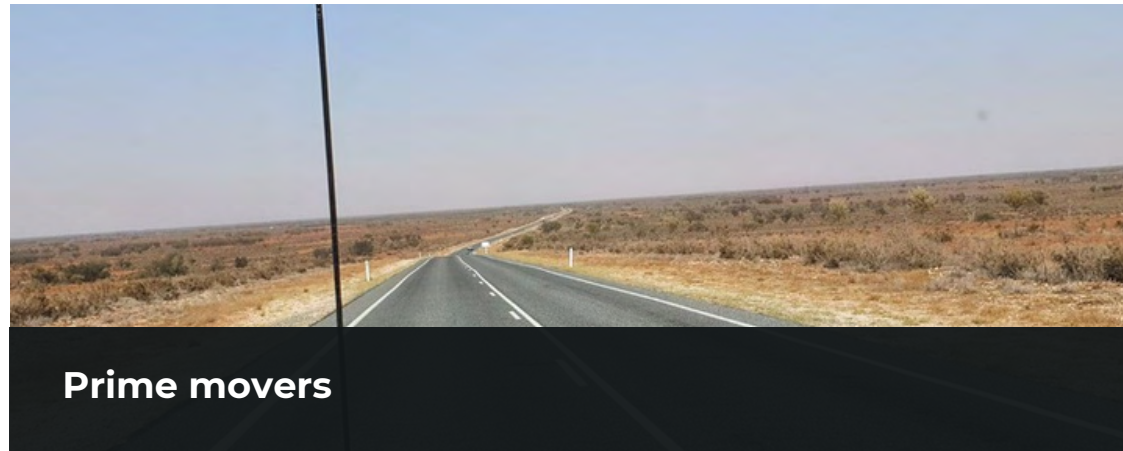

- ✓ Route assessments and road condition checks
- ✓ Permit and movement-time coordination
- ✓ Pilot escort and police coordination where required
- ✓ Load safety, visibility and traffic management equipment
- ✓ Site access planning and stakeholder communication
- ✓ Risk-aware execution with experienced operators

CORE PRINCIPLE Move the load safely. Protect road users. Keep projects moving.

Fleet & Equipment

A visual snapshot of the assets and partners used to move large freight.

Project Experience

Recent and relevant capability examples to include in tenders and sales conversations.

PROJECT

Gympie Bypass

Coordinating steering and delivering bridge beams for a major Bruce Highway infrastructure project.

PROJECT

Coomera Connection

Escorting oversized beams for a major arterial link between Brisbane and the Gold Coast.

PROJECT

End-to-end logistics

Managing heavy haulage, oversized loads, project cargo and time-critical freight from origin to destination.

Bridge beam transport capability

Australia-Wide Coverage

Brisbane based, with coverage across Queensland, the Northern Territory and beyond.
