Heritage Collection

100 YEARS OF INNOVATION YOU CAN TOUCH

With the introduction of waterproof sandpaper in the mid-1920s, *Klingspor* brought a **groundbreaking product innovation** to Europe that fundamentally and has remained an indispensable part of industry, trade, and surface finishing to this day.

To mark this anniversary, we are presenting the **exclusive Heritage Collection** - a one-of-a-kind special collection, which is available this year as a special bonus as part of various promotions. The collection **combines tradition, brand pride, and retro design**: a vintage-style metal sign featuring the original advertisement for *Klingspor Autopapier* from that era, a T-shirt with a large back print and a subtle front print, and a backpack with an all-over print of the Heritage motif.

A piece of *Klingspor* history - limited edition, exclusive, and available only during the anniversary year.
