Subject: Suspension of Fuel Distribution to IHH

To: Mr. Shaun Hughes, Head of WFP

Dear sir,

Following information received by the CLA from a routine World Food Programme report, I am writing to demand immediate suspension of fuel distribution and all other support by WFP to IHH Humanitarian Relief Foundation.

IHH is a designated terror organization by Israeli Authorities since May 2008, and being such, its activities are illegal in Israel. Supporting activities of a designated terror organization is seen as a serious offense that could carry severe consequences.

I expect full cooperation from WFP in addressing this matter promptly and transparently.

Sincerely,

MG Yoram Halevy

Coordinator of Government Activities in the Territories
