

July/August Made It Society Accordion Organizer Book/Folio Supplies

I am so excited about this project! I had a vision and I worked to make it happen, I love how it turned out and I can see using it for so many different uses, from card organizing to recipe holding and even photo organizing. It is fun to assemble and the best part EASY!

What you will want to gather:

Supplies

8- 8.5 x 11 solid card stock

This card stock is the main part of the build. I will be using one color of card stock for this build, in the future I can see myself mixing it up.

However, to keep this project easy for all of us to create together, let's just choose a single color.

6-10 pieces of 12 x 12 or 8.5 x 11 inch decorator cardstock.

This project has very few large areas to cover so you can use 8.5 x 11 to cover it. I will be using one 12 x 12 card stock collection.

Now you just need your Make It Supplies:

Trimmer

Scoreboard

Bone Folder

Ruler

Pokey tool

Corner rounder (or any shape round or tab creator)

Scissors

Glue (wet, dry or both)

Cloth (for cleaning up glue)

Magnet, Velcro or ribbon to create a closure

We will be making this folio organizer in two Made It Society Sessions. We will not be filling up the pockets but I will give you ideas for how to use this folio in your crafting and/or for gifting.
