RAY: *Cats on Film Pod* is the only podcast reviewing movies from a cat's perspective. And we're probly the only reviewers to give a good rating to Halle Berry's *Catwoman*.

RAY: Skipper, what's your rating of feline representation in *Catwoman?*
SKIPPER: Meow, meow, meow
RAY: Three out of four paws? That's much too generous!
SKIPPER: meows
RAY: *Hmmm,* yeah – just 'cause the movie as a whole is a messy, tonally uneven, video game cut-scene, it can still depict cats well. If a little glowy from the CGI.
